Block practice · Exchange rates, the current account and trade-offs

Work through each question type in order. Each section has a worked-example retry and all further practice. Attempt only the part outlined in red.

Exchange rates: meaning and what moves a currency

Converting currencies with an exchange rate

Draw a change in a currency's exchange rate

Rising and falling currencies: effects on trade and the current account

Causes and effects of current account deficits and surpluses

Macroeconomic objectives and trade-offs

OLevels.com SCHOOL

Practice workbook · Exchange rates: meaning and what moves a currency

The exchange rate as the price of one currency in another, and how interest rates, speculators, trade flows and government currency dealing shift the demand for or supply of a currency.

7 question parts: 1 worked-example retry and 6 further practice parts.
Name: _____ Class: _____ Date: _____

Practise one question type at a time. Attempt the part inside the red boundary; the rest of the question and any figures are kept for context. Write your working in the answer space.

The first question is a retry of the website worked example, without its solution. Check your answers online with 'Check my answer', or ask your teacher for the answer booklet.

In Western Australia, single-use plastic bags were banned in July 2018 but fines were not enforced. However, from 2019, under new regulations, any shops providing customers with the banned plastic bags may face prosecution, with fines of up to AUS$5 000. The government is relying on shoppers to report retailers that break the rules.

The Environment Minister Stephen Dawson said the ban is well supported by the community. He said "Taking plastic bags out of litter is a significant step towards protecting our environment".

(e) With reference to the data above and your knowledge of economics, assess the likely effectiveness of regulation to protect the environment in a country such as Australia.

2022 JUN · Paper 02

Worked-example retry · Attempt part f only.

After nearly 20 years of negotiations, the European Union (EU) and Mercosur, the South American trading bloc, have agreed a draft trade deal. It would create the largest free trade area in the world consisting of 770 million people. The two blocs currently trade more than €88bn in goods and €34bn in services every year.

The EU would eventually end 92% of the tariffs on Mercosur imports. Mercosur would gradually remove its tariffs on 91% of EU goods, which amounts to €4bn. This includes removing the tariffs on clothing, chemicals, wine and canned peaches. Mercosur farmers would be allowed to export a specific quantity of beef, sugar and chicken at a lower tariff rate to the EU each year.

Practice workbook · Causes and effects of current account deficits and surpluses

How quality and prices of domestic and foreign goods, and exchange rates, change exports and imports. Also covers the impacts of deficits and surpluses (leakage, inflation, reserves, export demand).

16 question parts: 1 worked-example retry and 15 further practice parts.
Name: _____ Class: _____ Date: _____

Practise one question type at a time. Attempt the part inside the red boundary; the rest of the question and any figures are kept for context. Write your working in the answer space.

The first question is a retry of the website worked example, without its solution. Check your answers online with 'Check my answer', or ask your teacher for the answer booklet.

Worked-example retry · Attempt part e only.

Indonesia's Economic Minister Darmin Nasution said that the current account deficit would reach 3% of gross domestic product (GDP) by the end of 2018.

"Yes, it is a bit high, but nothing to worry about. The deficit in 2014 was even higher," said Darmin Nasution.

Meanwhile, senior economist Faisal Basri called on the government to take the growing current account deficit as a serious matter because it could have negative effects on the economy.

(e) With reference to the data above and your knowledge of economics, assess the impact of a current account deficit for a country such as Indonesia.

2025 NOV · Paper 02

Further practice · Attempt part b only.

As part of its fiscal policy, the UK Government has promised additional funding and increased pay for doctors over the next five years to help the country's struggling healthcare system.

The UK public healthcare system is under considerable strain. For several months hospitals have been dealing with a lack of staff and long waiting times for medical care, with surgeries postponed or cancelled. At the end of April 2024, 7.6 million people were still waiting for treatment.

The UK's healthcare system is paid for by taxpayers to provide free access to hospital and doctor services for all citizens. The government is unsure how this additional investment will be funded and currently spends around 9.3% of its gross domestic product (GDP) on healthcare.

(c) With reference to the data above and your knowledge of economics, evaluate the possible economic benefits of increasing government expenditure on healthcare for a country such as the UK.

A report by the charity Oxfam, stated that Vietnam has 210 super-rich people. Their combined earnings for one year are enough to take 3.2 million people out of poverty and end absolute poverty in Vietnam. To reduce inequality and poverty, Oxfam is calling on international leaders to increase taxes to fund healthcare, education and job creation. Oxfam also asked business leaders to pay employees a living wage and pay their fair share of tax.

(c) With reference to the data above and your knowledge of economics, evaluate whether an increase in progressive taxes is the most effective way to reduce inequality and poverty for a country such as Vietnam.

In 2018, the USA increased its emissions of carbon dioxide. This increase happened even though large numbers of coal-fired power stations were closed and American consumers purchased nearly double the number of electric cars. The main reason, often stated as a benefit to an economy, was high economic growth.

A booming US economy has meant increased industrial production, more truck and air travel and more offices and other workplaces to heat. The result is that the USA will have to do even more in the coming years to meet international commitments for greenhouse gas reductions by increasing its protection of the environment.

(Source adapted from: https://www.nbcnews.com/news/us-news/economic-boom-spikes-carbon-emissions-despite-green-tech-gains-n956336)
