Practice workbook · Percentage change, including inflation from a price index

(new - old) / old x 100 applied to any series: GDP, GDP per capita, population, profit, interest rate, spending, deficit, sales, and a consumer price index (including the base-100 shortcut and scaling a basket price by the index).

19 question parts: 1 worked-example retry and 18 further practice parts.
Name: _____ Class: _____ Date: _____

Practise one question type at a time. Attempt the part inside the red boundary; the rest of the question and any figures are kept for context. Write your working in the answer space.

The first question is a retry of the website worked example, without its solution. Check your answers online with 'Check my answer', or ask your teacher for the answer booklet.

2021 NOV · Paper 01

Worked-example retry · Attempt part a only.

Trekking is a very popular activity for tourists in Nepal. In the main tourist town of Pokhara, there are a few large firms that offer guides, porters and resources. Some smaller firms specialise in taking customers on less popular routes, whereas others offer guides who speak different languages. It is difficult for new competitors to set up in Pokhara, as expensive permits are required.

(b) With reference to the data above and your knowledge of economics, analyse why the market for trekking in Pokhara could be described as an oligopoly.

19. Question 4 · part a · 2 marks

2025 JUN · Paper 02

Further practice · Attempt part a only.

From food to clothes, supply chains have harmful impacts on the environment. In 2023, the supply of consumer goods and services was the largest single contributor to UK emissions at 26% of the annual total; the UK energy sector was second highest at 17%.

(b) With reference to the data above and your knowledge of economics, analyse how business activity can damage the environment in a country such as the UK.
