2023 JAN · Paper 01 · extract 3 of 6 · find part e in this mark scheme extract

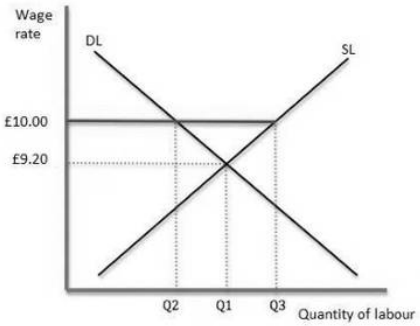

Question number	With reference to the data above and your knowledge of economics, analyse why the UK Government might provide flood defences. **Indicative content**
3(d)	**AO2 (3 marks)/AO3 (3 marks)** **AO2 and AO3** • Without the government intervention of the flood defence system, the River Calder flooding may continue, causing firms to shut down, residents to lose their homes and an increase in damaged infrastructure • The UK Government made the £32m investment in a flood defence scheme because residents, businesses and infrastructure in Calderdale had repeatedly suffered from flood damage • The UK Government is likely to provide goods and services that the private sector would be unwilling to provide because of the lack of profit • Flood defences in Calderdale are an example of market failure because the private sector is unlikely to provide resources needed to manage the problem in sufficient quantities • Flood defences are an example of public goods that are provided by the government and have characteristics of being non-rivalry and non-excludable • Failure to provide flood defences would increase the need for individuals and firms to rely on the UK Government financially

Level	**Mark**	**Descriptor**
	0	No rewardable material.
Level 1	1–2	• Demonstrates basic knowledge and understanding by developing relevant points. Limited application of economic terms, concepts, theories and calculations (AO2). • Information presented will lack selectivity and organisation. Interpretation of economic information will be limited, with a lack of analysis of issues (AO3).
Level 2	3–4	• Demonstrates partial knowledge and understanding by developing relevant points. Partial application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate some selectivity and organisation. Interpretation of economic information will be good, with some analysis of issues (AO3).
Level 3	5–6	• Demonstrates clear knowledge and understanding by developing relevant points. Appropriate application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate excellent selectivity and organisation. Interpretation of economic information will be excellent, with a thorough analysis of issues (AO3).

Type MS · Trade unions: how they affect pay and jobs

Answer 1 of 7 · Question 3 part e · 9 marks

2023 JAN · Paper 01 · extract 4 of 6 · find part e in this mark scheme extract

Question number	With reference to the data above and your knowledge of economics, assess the impact of trade union activity on Morrisons and its employees. **Indicative content**
3(e)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • A trade union is an organisation which represents the employees in an industry • It aims to protect workers' rights, increase wages, provide legal assistance, put pressure on governments to legislate in favour of employees and improve working conditions • Trade union, Usdaw negotiated an hourly wage increase for the 110,000 workers at Morrisons supermarkets of nearly 9% • An increase in the wage rate may lead to inefficiency and unemployment • This is because the wage increase at the supermarket will mean higher costs for the firm. It may therefore, try to reduce costs by employing fewer workers • Possible use of a diagram  **AO4** • However, the wage rate increase of at least £0.80 per hour may increase productivity • This means Morrisons may be able to maintain the number of workers it employs because, increased productivity would not result in higher costs due to the wage increase • As Morrisons is a leading supermarket, it may be able to pass some of the higher wage rate costs on to consumers in the form of increased prices • This may depend whether the products sold are price inelastic in demand

Answer 2 of 7 · Question 3 part f · 9 marks

2019 JUN · Paper 01 (regional R) · extract 4 of 6 · find part f in this mark scheme extract

Question number	Indicative content
3(f)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • Trade unions can help raise wages and improve working conditions for workers by putting pressure on employers during negotiations • SAFTU has nearly 700,000 members and is the 2nd largest federation in South Africa meaning it could have a lot of influence on employers • SAFTU is a new trade union group and so may have new ideas with which to push for workers' rights • The higher wages may reduce the quantity of labour that firms can afford to employ, thus meaning fewer workers are employed in the industry but those remaining receive higher wages • The use of a quantity/wage of labour diagram **AO4** • However, the influence of trade unions has been decreasing all over the world • The effectiveness of the trade unions may depend on whether their power and influence is restricted by legislation • When wage rates increase, if productivity also rises, firms may not have to reduce the number of workers they employ due to higher labour costs • There isn't enough information in the data to know whether 700,000 is a large proportion of the workforce and therefore how influential they might be • How effective trade unions are in influencing the price and quantity of labour may depend on whether firms can pass on increased costs through increased prices or reduced profit margins

2021 NOV · Paper 01 · extract 4 of 6 · find part b in this mark scheme extract

Question number	Indicative content
2(h)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • Negative externalities are spillover effects on third parties due to consumption/production • Pollution is an example of a negative externality because it is created by high volumes of traffic and has an external cost to people in Jakarta • One method of government intervention to reduce negative externalities is the use of regulation • These regulations will limit the amount of pollution produced and reduce the externalities • The Indonesian Government introduced the traffic-free regulation in an attempt to reduce pollution levels in Jakarta because less traffic should lead to less fumes being emitted into the environment • The regulation covers over 8 km of Jakarta's streets on a Sunday, meaning a section of the city is not subjected to the negative externality of traffic fumes during this time • In 2016 air-quality had improved by 65% since the regulations were introduced, meaning the regulations have been quite effective in reducing the negative externality **AO4** • However, there is no guarantee that the reduced pollution level is a direct result of the traffic-free regulation • Other measures may be in place such as the taxation on fuel • The effectiveness of the regulations depends on the level of enforcement from the government and cooperation from the public • The number of vehicles registered in the area is increasing, meaning that pollution is also likely to increase again • There are likely to be other factors causing pollution in the city, such as from factories

Question Number	With reference to the data above and your knowledge of economics, assess the benefits for Foxconn Technology of using division of labour. **Indicative content**
2(g)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • Division of labour involves breaking down the production process into smaller tasks • Each worker specialises in only one task, such as handling the phone screen, checking the phone works and packaging the phone ready to ship to the customer • By specialising, efficiency is improved because workers can conduct tasks quicker and with more accuracy • This leads to an increase in productivity and lower costs of production for Foxconn Technology • Workers do not need to waste time moving between tasks and so greater efficiencies are created, again lowering production costs **AO4** • However, tasks such as checking the iPhone works is likely to be repetitive and could be very boring for the worker, meaning they may become poorly motivated • Therefore, mistakes may be made leading to the need for part of the production process to be repeated, reducing productivity • This could therefore increase the cost of production and reduce the profit made by Foxconn Technology • Problems may occur if one part of the production process fails. For example, if a broken phone screen is found, the phone cannot progress to the stage where it is packed to ship to the customer • This may be more likely due to the number of tasks that production is divided into with 270,000 workers • Specialisation may cause problems if a worker is absent and no one is able to take their place due to a lack of the specialist skill

Question number	Using the diagram below, draw the likely effects on the market for electric cars following the introduction of a subsidy on electric cars. Label the new curve, the new equilibrium price and the new equilibrium quantity. **Answer**	Mark
1(g)	**AO2 3 marks** Award 1 mark for a rightward shift of the supply curve, labelled Award 1 mark for a lower equilibrium price, labelled Award 1 mark for a higher equilibrium quantity, labelled 	(3)

Question number	Explain **one** possible advantage of privatisation for consumers in Brazil. **Answer**	Mark
1(h)	**AO2 3 marks** Award 1 mark for identifying an advantage Award 1 mark for developing the response Award 1 mark for the response being in context • Consumers may benefit from lower prices **(1)** because a private firm is likely to want to be efficient **(1)** so it will aim to produce food at its lowest possible cost **(1)** • Better quality may be available to consumers **(1)** because private firms will aim to make a profit **(1)** meaning they need to retain customers by providing quality food products **(1)** Accept any other appropriate response	(3)

Type MS · Trade unions: how they affect pay and jobs

Answer 5 of 7 · Question 1 part a · 1 mark

2023 NOV · Paper 01 · extract 4 of 5 · find part a in this mark scheme extract

Question number	With reference to the data above and your knowledge of economics, analyse how market failure is likely to occur at the TSFG venue. **Indicative content**
1(i)	**AO2 (3 marks)/AO3 (3 marks)** **AO2 and AO3** • Market failure exists where resources are not allocated efficiently • Examples of market failure include externalities, missing markets, lack of information, factor immobility and lack of competition • There is a lack of competition selling food and drinks at the TSFG, meaning customers have limited choice of where to buy refreshments inside the grounds • This means higher prices can be charged because customers cannot get refreshments anywhere else • As people spend several hours at the venue, they are likely to need something to eat and/or drink during their visit • Therefore, the high prices and reduced choice leads to an inefficient allocation of resources

Level	Mark	Descriptor

Answer 6 of 7 · Question 2 part g · 9 marks

2024 NOV · Paper 01 · extract 2 of 6 · find part g in this mark scheme extract

Question number	Calculate the **total variable costs** for the firm in the month of September. You are advised to show your working. **Answer**	Mark
2(c)	**AO2 2 marks** Award 1 mark for showing the correct calculation €3 000 + €18 000 **(1)** Award 1 mark for calculating total variable costs = €21 000 **(1)** Award 2 marks if total variable costs are correctly calculated as €21 000, even if no calculations are shown Award 1 mark if the total variable costs are calculated as 21 000, even if no calculations are shown Do not award marks for a formula	**(2)**

Question number	What is meant by the term total revenue? **Answer**	Mark
2(d)	**AO1 2 marks** Award up to 2 marks for a correct definition The amount of money gained **(1)** from the sale of all products **(1)** Accept any other appropriate response	**(2)**

Question number	Describe **one** feature of a monopoly. **Answer**	Mark
2(e)	**AO1 2 marks** Award 1 mark for reference to the feature and 1 mark for development of the feature High barriers to entry **(1)** therefore new firms cannot enter the market **(1)** OR Unique product **(1)** to allow the firm to remain alone in the market **(1)** Accept any other appropriate response	**(2)**

Type MS · Trade unions: how they affect pay and jobs

Answer 6 of 7 · Question 2 part g · 9 marks

2024 NOV · Paper 01 · extract 3 of 6 · find part g in this mark scheme extract

Question number	Explain **one** reason why the Italian Government may have introduced legislation that makes it easier for new taxi firms to enter the market. **Answer**	**Mark**
2(f)	**AO2 3 marks** Award 1 mark for identifying a relevant reason Award 1 mark for developing the reason Award 1 mark for the response being in context • The legislation would increase the competition **(1)** therefore increasing the choice of taxis **(1)** meaning it will be easier for the public to find/hire a taxi **(1)** • The legislation would reduce barriers to entry **(1)** reducing the power of taxi firms to charge high fares **(1)** meaning it would be cheaper for the public to travel **(1)** Accept any other appropriate response	**(3)**

Type MS · Trade unions: how they affect pay and jobs

Answer 6 of 7 · Question 2 part g · 9 marks

2024 NOV · Paper 01 · extract 4 of 6 · find part g in this mark scheme extract

Question number	With reference to the data above and your knowledge of economics, assess the effectiveness of trade unions in increasing wages, such as for the transport workers in Germany. **Indicative content**
2(g)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • Trade unions can help raise wages for workers by putting pressure on employers during negotiations • In this case a major strike was organised by the trade unions, which makes employers more likely to negotiate • Verdi is Germany's second largest trade union, meaning it could have a lot of influence on employers • 2.5 million transport workers were helped by the union, in obtaining a 5.5% pay increase • Therefore, other firms may be willing to discuss wages with trade unions in order to benefit from increased productivity and/or reduced disruption **AO4** • However, the effectiveness of the trade unions depends upon how many members support the strike action • Verdi was aiming to increase wages by 10.5% for transport workers, meaning trade union membership was only partially effective • Workers may not think it worth paying a membership fee to a trade union if it is unable to deliver wage increases • The effectiveness of trade unions may depend on whether firms can pass on increased costs through increased prices, such as higher prices for passengers to travel by train on German railways • The alternative may be reduced profit margins for the transport firms, meaning they would be less likely to agree to pay increases

Answer 6 of 7 · Question 2 part g · 9 marks

2024 NOV · Paper 01 · extract 5 of 6 · find part g in this mark scheme extract

Level	Mark	Descriptor
	0	No rewardable material.
Level 1	1–3	• Demonstrates basic knowledge and understanding by developing relevant points. Limited application of economic terms, concepts, theories and calculations (AO2). • Information presented will lack selectivity and organisation. Interpretation of economic information will be limited, with a lack of analysis of issues (AO3). • Only offers one viewpoint, meaning there is an unbalanced and incomplete evaluation, showing limited understanding and awareness (AO4).
Level 2	4–6	• Demonstrates partial knowledge and understanding by developing relevant points. Partial application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate some selectivity and organisation. Interpretation of economic information will be good, with some analysis of issues (AO3). • Offers more than one viewpoint but the argument may lack balance, leading to an evaluation that may not demonstrate full understanding and awareness (AO4).
Level 3	7–9	• Demonstrates clear knowledge and understanding by developing relevant points. Appropriate application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate excellent selectivity and organisation. Interpretation of economic information will be excellent, with a thorough analysis of issues (AO3). • Offers more than one viewpoint. The argument is well balanced and coherent, leading to an evaluation that demonstrates full understanding and awareness (AO4).

Answer 7 of 7 · Question 2 part g · 9 marks

2025 JUN · Paper 01 · extract 2 of 6 · find part g in this mark scheme extract

Question number	Calculate, to two decimal places the **price elasticity of supply (PES)** for the firm. You are advised to show your working. **Answer**	Mark
2(c)	**AO2 2 marks** Award 1 mark for showing the correct calculation 5.4%/7.8% **(1)** Award 1 mark for calculating the correct PES = 0.69 **(1)** Award 2 marks if PES is correctly calculated as 0.69, even if no calculations are shown Award 1 mark if the answer given is 0.69%, with or without calculations shown Do not award marks for a formula	**(2)**

Question number	What is meant by the term innovation? **Answer**	Mark
2(d)	**AO1 2 marks** Award up to 2 marks for a correct definition The commercial exploitation **(1)** of a new invention **(1)** **OR** Innovation is the process of improving/creating new products/ services/production methods **(1)** to increase efficiency/in the production process **(1)** Accept any other appropriate response	**(2)**

Question number	Describe **one** reason why a car mechanic is a factor of production. **Answer**	Mark
2(e)	**AO1 2 marks** Award 1 mark for reference to the reason and 1 mark for development of the reason	

Type MS · Trade unions: how they affect pay and jobs

Answer 7 of 7 · Question 2 part g · 9 marks

2025 JUN · Paper 01 · extract 3 of 6 · find part g in this mark scheme extract

	A car mechanic provides the service of repairing vehicles/machinery for use in production **(1)** therefore a car mechanic is labour **(1)** Accept any other appropriate response	**(2)**

Question number	Explain **one** possible disadvantage of this privatisation for other broadcasters in Argentina. **Answer**	**Mark**
2(f)	**AO2 3 marks** Award 1 mark for identifying a relevant disadvantage Award 1 mark for developing the disadvantage Award 1 mark for the response being in context • The newly privatised Radio Nacional will be under pressure to make a profit **(1)** meaning there would be more incentive to meet the needs of listeners of Radio Nacional. **(1)** This would increase competition for other broadcasters **(1)** Accept any other appropriate response	**(3)**

Type MS · Trade unions: how they affect pay and jobs

Answer 7 of 7 · Question 2 part g · 9 marks

2025 JUN · Paper 01 · extract 4 of 6 · find part g in this mark scheme extract

Question number	With reference to the data above and your knowledge of economics, assess the effectiveness of trade unions in increasing pay and improving working conditions for their members. **Indicative content**
2(g)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • Trade unions can help raise wages and improve working conditions for workers by putting pressure on employers during negotiations • Mine workers have already been helped by the GMWU, in obtaining an increase in the monthly minimum wage to $500 • A higher rate of pay may lead to increased productivity from more motivated workers, making employers more likely to accede to the union's demands • The union has been supporting workers for 80 years and has over 16,000 members, meaning it could have a lot of influence on employers • This longevity and the ongoing pressure of GMWU on employers to improve health and safety, shows the union has been reasonably effective so far **AO4** • However, the need for further talks to protect mine workers' jobs shows GMWU membership may only be partially effective • Workers may not think it worth paying a membership fee to a trade union if it is unable to guarantee secure jobs • When wage rates increase, employers may not be able to afford to employ the same quantity of workers, thus meaning mine workers' jobs are at risk • Improving health and safety is likely to incur higher costs for mining firms • This means that the effectiveness of trade unions may depend on whether firms can pass on these increased costs through increased prices, such as when demand for products from mines is falling • The alternative may be reduced profit margins for the mining firms, meaning they would be less likely to agree to pay increases
