Type MS · GDP and economic growth: meaning, uses and limits

Answer 1 of 9 · Question 3 part e · 9 marks

2021 NOV · Paper 02 · extract 1 of 5 · find part e in this mark scheme extract

3(a)	**AO2 1 mark** The only correct answer is: **B** £321.7bn A is not correct because it includes indirect tax C is not correct because it does not include business tax D is not correct because it does not include income tax	**(1)**

Question Number	**Answer**	Mark
3(b)	**AO1 1 mark** The only correct answer is: **D** selling its own currency A is not correct because this will increase demand for its currency B is not correct because this will increase demand for your own currency C is not correct because this will cause it to appreciate	**(1)**

Question Number	**Answer**	Mark
3(c)	**AO2 3 marks** Award 1 mark for identifying an advantage Award 1 mark for developing the advantage Award 1 mark for the response being in context • One advantage is an increase in exports **(1)**. Subsiding clothing by 4% can make exports more competitive **(1)**. This can result in greater export earnings and improve the current account **(1)** • One advantage is more domestic firms may enter the market **(1)**. Subsiding home appliances by up to 10% makes them more price competitive **(1)**. This can result in an increase in employment **(1)** Accept any other appropriate response	**(3)**

Type MS · GDP and economic growth: meaning, uses and limits

Answer 1 of 9 · Question 3 part e · 9 marks

2021 NOV · Paper 02 · extract 2 of 5 · find part e in this mark scheme extract

Question Number	**Indicative content**
3(d)	**AO2 (3 marks)/AO3 (3 marks)** **AO2 and AO3** • Taxation can be imposed on activities that damage the environment • Taxation is used to ensure consumers and producers pay the full social cost of producing a good or service • Increasing taxation on petrol and diesel fuel would substantially increase the price of fuel for road users which could reduce the amount of journeys taken by cars and other road vehicles • Increased taxation could also raise additional revenue for the UK Government • This could be used to finance pollution reduction schemes and improve air quality in the UK • Taxation provides a market incentive for firms and consumers to switch to alternative forms of transport that may not cause as much environmental damage

Level	**Mark**	**Descriptor**
	0	No rewardable material.
Level 1	1–2	• Demonstrates basic knowledge and understanding by developing relevant points. Limited application of economic terms, concepts, theories and calculations (AO2). • Information presented will lack selectivity and organisation. Interpretation of economic information will be limited, with a lack of analysis of issues (AO3).
Level 2	3–4	• Demonstrates partial knowledge and understanding by developing relevant points. Partial application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate some selectivity and organisation. Interpretation of economic information will be good, with some analysis of issues (AO3).
Level 3	5–6	• Demonstrates clear knowledge and understanding by developing relevant points. Appropriate application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate excellent selectivity and organisation. Interpretation of economic information will be excellent, with a thorough analysis of issues (AO3).

Type MS · GDP and economic growth: meaning, uses and limits

Answer 1 of 9 · Question 3 part e · 9 marks

2021 NOV · Paper 02 · extract 3 of 5 · find part e in this mark scheme extract

Question Number	**Indicative content**
3(e)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • GDP is the market value of all final goods and services produced in a year • GDP is used to measure economic growth all over the world • This means that comparisons can be easily made between the growth rates of Ghana and different countries over time • Ghana has double the GDP growth rate compared to other emerging economies • GDP is also used as an indicator of a nation's overall standard of living because, generally, a nation's standard of living increases as GDP increases • Ghana was predicted to have a 8.8% GDP growth rate in 2019 and this could indicate an increase in living standards for the population **AO4** • However, using GDP to measure growth does have some limitations • Increases in inflation could distort the true rate of economic growth in Ghana and only real GDP figures reflect the true rate of economic growth in an economy • GDP does not include figures for the hidden or informal economy which are not included in GDP figures • GDP does not take into account external costs such as environmental costs and as a result GDP does not measure how these impact on the wellbeing of society • Ghana is becoming heavily reliant on oil which can have many associated external environmental costs • GDP figures do not reflect how additional income is distributed between the population of Ghana and much of the growth may not be evenly distributed amongst the population of Ghana who still may remain in poverty

Type MS · GDP and economic growth: meaning, uses and limits

Answer 1 of 9 · Question 3 part e · 9 marks

2021 NOV · Paper 02 · extract 4 of 5 · find part e in this mark scheme extract

Level	Mark	Descriptor
	0	No rewardable material.
Level 1	1–3	• Demonstrates basic knowledge and understanding by developing relevant points. Limited application of economic terms, concepts, theories and calculations (AO2). • Information presented will lack selectivity and organisation. Interpretation of economic information will be limited, with a lack of analysis of issues (AO3). • Only offers one viewpoint, meaning there is an unbalanced and incomplete evaluation, showing limited understanding and awareness (AO4).
Level 2	4–6	• Demonstrates partial knowledge and understanding by developing relevant points. Partial application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate some selectivity and organisation. Interpretation of economic information will be good, with some analysis of issues (AO3). • Offers more than one viewpoint but the argument may lack balance, leading to an evaluation that may not demonstrate full understanding and awareness (AO4).
Level 3	7–9	• Demonstrates clear knowledge and understanding by developing relevant points. Appropriate application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate excellent selectivity and organisation. Interpretation of economic information will be excellent, with a thorough analysis of issues (AO3). • Offers more than one viewpoint. The argument is well balanced and coherent, leading to an evaluation that demonstrates full understanding and awareness (AO4).

Question Number	Answer	Mark

Type MS · GDP and economic growth: meaning, uses and limits

Answer 2 of 9 · Question 2 part f · 3 marks

2020 JAN · Paper 02 · extract 1 of 6 · find part f in this mark scheme extract

2(a)	**AO2 1 mark** **B** Progressive	**(1)**

Question Number	**Answer**	Mark
2(b)	**AO1 1 mark** **D** Indirect taxes	**(1)**

Question Number	**Answer**	Mark
2(c)	**AO1 1 mark** Award 1 mark for **one** correct method. • taxation • subsidy • regulation • fines • pollution permits • government provision of parks Accept any other appropriate responses.	**(1)**

Type MS · GDP and economic growth: meaning, uses and limits

Answer 2 of 9 · Question 2 part f · 3 marks

2020 JAN · Paper 02 · extract 2 of 6 · find part f in this mark scheme extract

Question Number	Answer	Mark
2(d)	**AO1 2 marks** Award 1 mark for reference to standard of living and 1 mark for reference to typical standards in society The standard of living is below **(1)** the typical living standards in that society **(1)**. **OR** In the EU it is 60% **(1)** of the median income **(1)** Accept any other appropriate responses.	**(2)**

Question Number	Answer	Mark
2(e)	**AO2 3 marks** Award 1 mark for identifying a relevant advantage using a fine Award 1 mark for developing the advantage Award 1 mark for the response being in context • One advantage is that this can raise a large amount of revenue **(1)**. The parking fines have raised £10.4m which could be used to improve public services **(1)** This can lead to increased economic growth in the Manchester area **(1)**. • One advantage is that it stops motorists parking illegally **(1)**. Having to pay a fine of £30 reduces the income of motorists **(1)**. This means that there might be an increase in the number of people using public transport rather than cars **(1)**. Accept any other appropriate response.	**(3)**

Type MS · GDP and economic growth: meaning, uses and limits

Answer 2 of 9 · Question 2 part f · 3 marks

2020 JAN · Paper 02 · extract 3 of 6 · find part f in this mark scheme extract

Question Number	Answer	Mark
2(f)	**AO2 3 marks** Award 1 mark for identifying a possible reason Award 1 mark for developing the possible reason Award 1 mark for the response being in context • One reason is that not all income from earnings is declared/the hidden economy **(1)**. Some people under declare their earning from jobs such as taxi driving **(1)**. This reduces the amount of Greece's GDP which is accurately recorded **(1)**. • One reason is some countries record GDP differently **(1)**. Some activities such as subsistence farming in Greece may not be included in GDP figures **(1)**. Therefore, Greece's GDP figures may not be an accurate record of the total economic activity in an economy **(1)**. Accept any other appropriate response.	**(3)**

Type MS · GDP and economic growth: meaning, uses and limits

Answer 2 of 9 · Question 2 part f · 3 marks

2020 JAN · Paper 02 · extract 4 of 6 · find part f in this mark scheme extract

Question Number	Indicative content
2(g)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • Seasonal workers are employed at particular times of the year when demand for labour is higher than usual • Seasonal employment is often associated with industries such as agriculture, tourism and construction • The New Zealand Government could use supply-side policies to try and encourage the recruitment of more seasonal workers into the kiwifruit industry • This can be done by offering financial incentives to firms for training and hiring the long term unemployed in the area to work on the kiwifruit farms • The New Zealand Government could ensure that there are lower income tax rates to encourage working rather than relying on welfare benefits • The New Zealand Government may offer financial incentives for the kiwifruit growers to invest in more capital intensive farming methods which remove the need for labour **AO4** • However, supply-side policies can take a very long time to be effective • Training and the hiring of new workers may take a long time and the industry needs 1,200 workers immediately to pick the remaining 70% of the crop • Many workers may prefer to remain unemployed due to the seasonal nature of the industry, preferring more stable employment • There is a financial cost to the government of offering any incentives to the kiwifruit industry which could be spent on other areas of the economy • It could be argued that the shortage of workers should be resolved by the kiwifruit industry rather than the government and the shortage could be due to poor wages or working conditions

Type MS · GDP and economic growth: meaning, uses and limits

Question Number	**Answer**	Mark
2(e)	**AO2 3 marks** Award 1 mark for identifying a relevant impact Award 1 mark for developing the impact Award 1 mark for the response being in context • One impact is that direct tax revenues may increase **(1).** By having more workers in employment paying income tax **(1)** results in an increase in tax revenues for the German Government to spend in the economy **(1)** • One impact is that indirect tax revenues may increase **(1).** With more people in employment, demand for goods and services may increase **(1).** Taxes such as VAT for the German Government can then be used for government expenditure **(1)** Accept any other appropriate response	**(3)**

Question Number	**Answer**	Mark
2(f)	**AO2 3 marks** Award 1 mark for identifying a reason Award 1 mark for developing the reason Award 1 mark for the response being in context • Some foreign-made toys may fail to follow requirements for product safety in the manufacturing process **(1).** This could result in unsafe toys being bought by UK consumers **(1).** The unsafe products may cause serious illness and even possibly death of a child **(1)** • The country of origin may have lower safety standards **(1).** The UK may have higher safety standards compared to other countries **(1).** This may have resulted in toys which are unsafe for UK consumers **(1)** Accept any other appropriate response	**(3)**

Type MS · GDP and economic growth: meaning, uses and limits

Answer 3 of 9 · Question 2 part b · 1 mark

2020 NOV · Paper 02 (regional R) · extract 3 of 5 · find part b in this mark scheme extract

Question Number	Indicative content	Mark
2(g)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • Deregulation is a supply-side policy of making markets more competitive by removing barriers such as regulations • Regulations such as labour laws often create additional costs for firms which makes them less competitive in comparison to firms abroad • Experts have advised the government to reduce regulation in markets such as finance and transport • Removing labour market regulations such as a reduction in the minimum wage may result in the tourism sector reducing its overall labour costs and therefore being able to employ more workers • This may result in a reduction in the 11.6% rates of 15-29 year olds • Removing competition laws in the finance sector may also result in more firms entering the market and therefore employing workers and thereby reducing unemployment in South Korea **AO4** • However, deregulation may just result in firms saving on labour costs but not employing anymore workers • Reducing the minimum wage may result in less people willing and able to work thereby increasing unemployment rather than reducing it • Regulations are designed to protect workers, the environment and consumers so any removal of them may result in negative consequences for South Korea and lower standards of living • There are other supply-side policies such as lower income tax to encourage working which might be more effective in reducing unemployment • The overall effectiveness will depend on a range of economic factors within the South Korea economy not just the level of regulation	**(9)**

Type MS · GDP and economic growth: meaning, uses and limits

1(d)	**AO1 2 marks** Award 1 mark for reference to a way and 1 mark for the development of the way One way is by air pollution **(1)** due to factories releasing large amounts of greenhouse gases into the air **(1)** Accept any other appropriate response	**(2)**

Question Number	Calculate the **total amount of revenue** in £bn raised by direct taxes in February 2023. You are advised to show your working. **Answer**	Mark
1(e)	**AO2 2 marks** Award 1 mark for selecting direct taxes from the table £20bn + £7.6bn **(1)** Award 1 mark for the correct answer = £27.6bn **(1)** Award 2 marks if the correct answer is £27.6bn even if no calculations are shown Award 1 mark if £bn is missing i.e. 27.6 with or without calculations shown Do not award marks for the formula.	**(2)**

Type MS · GDP and economic growth: meaning, uses and limits

Answer 6 of 9 · Question 1 part b · 1 mark

2024 JUN · Paper 02 · extract 3 of 5 · find part b in this mark scheme extract

Question Number	Using the diagram below, draw the effects of the introduction of the quota on the equilibrium price and quantity of crude oil in China. Label the new curve, the new equilibrium price and the new equilibrium quantity. **Answer**	Mark
1(f)	**AO2 3 marks** Award 1 mark for a perfectly inelastic supply curve, labelled Award 1 mark for higher equilibrium price, labelled Award 1 mark for lower equilibrium quantity, labelled  	**(3)**

Type MS · GDP and economic growth: meaning, uses and limits

Answer 6 of 9 · Question 1 part b · 1 mark

2024 JUN · Paper 02 · extract 4 of 5 · find part b in this mark scheme extract

Question Number	Explain **one** reason why there may be a link between economic growth and inflation for an economy. **Answer**	Mark
1(g)	**AO2 3 marks** Award 1 mark for identifying a relevant reason Award 1 mark for developing the reason Award 1 mark for the response being in context • One reason is that economic growth can lead to a rise in demand for goods and services **(1).** Due to supply not keeping up with demand **(1)** prices rise/inflation occurs as demand is greater than supply **(1)** Accept any other appropriate response	**(3)**

Question Number	With reference to the data above and your knowledge of economics, analyse the disadvantages to firms in South Africa of being a member of the AfCFTA. **Indicative content**	Mark
1(h)	**AO2 (3 marks)/AO3 (3 marks)** **AO2 and AO3** • Trading blocs are usually groups of countries in specific regions that negotiate preferential trading agreements between themselves with reduced trade barriers • As more firms from different countries in the AfCFTA enter the South African market, domestic firms may face increased competition • Foreign firms may have advantages such as lower costs of production, better technology or greater access to resources which can give them an advantage over domestic firms • This could lead to lower prices and profit margins, making it harder for domestic firms to survive in the market • If South African firms are unable to compete with other firms in the trade bloc they may be forced to close or to reduce their workforce	**(6)**

Type MS · GDP and economic growth: meaning, uses and limits

Answer 6 of 9 · Question 1 part b · 1 mark

2024 JUN · Paper 02 · extract 5 of 5 · find part b in this mark scheme extract

Level	Mark	Descriptor
	0	No rewardable material.
Level 1	1–2	• Demonstrates basic knowledge and understanding by developing relevant points. Limited application of economic terms, concepts, theories and calculations (AO2). • Information presented will lack selectivity and organisation. Interpretation of economic information will be limited, with a lack of analysis of issues (AO3).
Level 2	3–4	• Demonstrates partial knowledge and understanding by developing relevant points. Partial application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate some selectivity and organisation. Interpretation of economic information will be good, with some analysis of issues (AO3).
Level 3	5–6	• Demonstrates clear knowledge and understanding by developing relevant points. Appropriate application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate excellent selectivity and organisation. Interpretation of economic information will be excellent, with a thorough analysis of issues (AO3).

Question Number	What is the likely impact of lower transport and communication costs on an economy? **Answer**	Mark

Type MS · GDP and economic growth: meaning, uses and limits

Answer 7 of 9 · Question 1 part b · 1 mark

2024 NOV · Paper 02 · extract 1 of 6 · find part b in this mark scheme extract

1(a)	**AO1 1 mark** The only correct answer is: **C** For basic needs to be met A is not correct because it is not a legal requirement for a government to do this B is not correct because this will increase inequality D is not correct because this will increase poverty	**(1)**

Question Number	Which **one** of the following is a benefit of using gross domestic product (GDP) as a measure of growth? **Answer**	Mark
1(b)	**AO1 1 mark** The only correct answer is: **D** It is easy to compare economic growth between countries A is not correct because it does not measure how economic growth is distributed amongst the population B is not correct because it does not take into account all economic activity C is not correct because it does not take into account inflation	**(1)**

Question Number	What is meant by the term deflation? **Answer**	Mark
1(c)	**AO1 2 marks** Award 2 marks for a correct definition A reduction **(1)** in the general level of prices for goods and services **(1)** Accept any other appropriate response	**(2)**

Type MS · GDP and economic growth: meaning, uses and limits

Answer 7 of 9 · Question 1 part b · 1 mark

2024 NOV · Paper 02 · extract 2 of 6 · find part b in this mark scheme extract

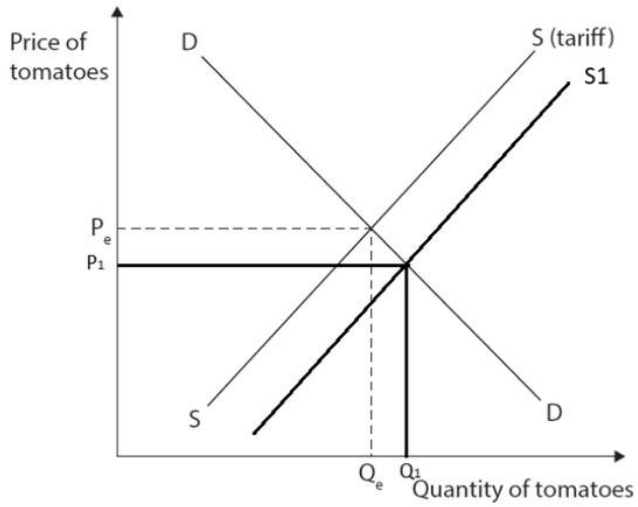

Question Number	Describe the impact of a reduction in the cost of communication on globalisation. **Answer**	Mark
1(d)	**AO1 2 marks** Award 1 mark for reference to the impact and 1 mark for the development of the impact One impact is an increase in globalisation **(1)** because firms can communicate/trade with each other more easily **(1)** Accept any other appropriate response	**(2)**

Question Number	Calculate the **invisible trade balance** in $bn for the country. You are advised to show your working. **Answer**	Mark
1(e)	**A02 2 marks** Award 1 mark for export of services – import of services $26bn - $16bn **(1)** Award 1 mark for the correct answer = $10bn **(1)** Award 2 marks if the correct answer is $10bn even if no calculations are shown Award 1 mark if the answer given is 10 even if no calculations are shown Do not award marks for the formula.	**(2)**

Type MS · GDP and economic growth: meaning, uses and limits

Answer 7 of 9 · Question 1 part b · 1 mark

2024 NOV · Paper 02 · extract 3 of 6 · find part b in this mark scheme extract

Question Number	Using the diagram below, draw the effects of the removal of the tariff on the equilibrium price and quantity of tomatoes in India. Label the new curve, the new equilibrium price and the new equilibrium quantity. **Answer**	Mark
1(f)	**AO2 3 marks** Award 1 mark for a rightward shift of the supply curve, labelled Award 1 mark for a lower equilibrium price, labelled Award 1 mark for a higher equilibrium quantity, labelled  **Figure 2**	**(3)**

Type MS · GDP and economic growth: meaning, uses and limits

Answer 7 of 9 · Question 1 part b · 1 mark

2024 NOV · Paper 02 · extract 4 of 6 · find part b in this mark scheme extract

Question Number	Explain **one** reason why governments use fines. **Answer**	Mark
1(g)	**AO2 3 marks** Award 1 mark for identifying a relevant reason Award 1 mark for developing the reason Award 1 mark for the response being in context • One reason is that it can deter individuals/firms from breaking the law **(1).** Very high fines of $1m will negatively affect the individuals/firms **(1)** this is likely to encourage individuals/firms to make sure they follow the law so people do not get injured **(1)** • One reason is that it can raise revenue for the government **(1).** Fines imposed on firms that break laws can be very high **(1)** and can give the government money to spend on compensating people affected by laws being broken **(1)** Accept any other appropriate response	**(3)**

Question Number	With reference to the data above and your knowledge of economics, analyse how high levels of cost-push inflation affect business confidence in a country such as Türkiye. **Indicative content**	Mark
1(h)	**AO2 (3 marks)/AO3 (3 marks)** **AO2 and AO3** • Higher energy costs of 157.2% can raise production and transportation costs resulting in an increase in raw material prices and overall costs of production • Higher production costs can lead to lower profits for firms in Türkiye • This is because firms may not be able to pass on the full cost of inflation to consumers in the form of higher prices reducing business confidence • When costs rise faster than firms can adjust their prices, profit margins get squeezed reducing business confidence • Firms may struggle to plan for the future. This is because they are not sure what energy prices will be like in the future causing uncertainty • This uncertainty can erode business confidence as firms are unsure about the future success of their operations	**(6)**

Type MS · GDP and economic growth: meaning, uses and limits

Answer 7 of 9 · Question 1 part b · 1 mark

2024 NOV · Paper 02 · extract 5 of 6 · find part b in this mark scheme extract

Question Number	Which **one** of the following is a rise in the value of an exchange rate in a floating exchange rate system? **Answer**	Mark

Type MS · GDP and economic growth: meaning, uses and limits

Answer 8 of 9 · Question 1 part h · 6 marks

2025 JUN · Paper 02 (regional R) · extract 1 of 6 · find part h in this mark scheme extract

1(a)	**AO1 1 mark** The only correct answer is: **B** A construction worker not finding work during the monsoon period A is not correct because this is an example of structural unemployment C is not correct because this is an example of cyclical unemployment D is not correct because this is an example of voluntary unemployment	**(1)**

Question Number	Which **one** of the following is likely to cause cost-push inflation? **Answer**	Mark
1(b)	**AO1 1 mark** The only correct answer is: **C** An increase in the prices of raw materials paid by producers A is not correct because this is more likely to cause demand-pull inflation B is not correct because this affects the supply-side but it is not a direct cause of cost-push inflation D is not correct because this stimulates demand rather than increasing production costs	**(1)**

Question Number	What is meant by the term current account deficit? **Answer**	Mark
1(c)	**AO1 2 marks** Award 2 marks for a correct definition When the value of imports **(1)** exceeds the value of exports **(1)** Accept any other appropriate response	**(2)**

Type MS · GDP and economic growth: meaning, uses and limits

Answer 8 of 9 · Question 1 part h · 6 marks

2025 JUN · Paper 02 (regional R) · extract 2 of 6 · find part h in this mark scheme extract

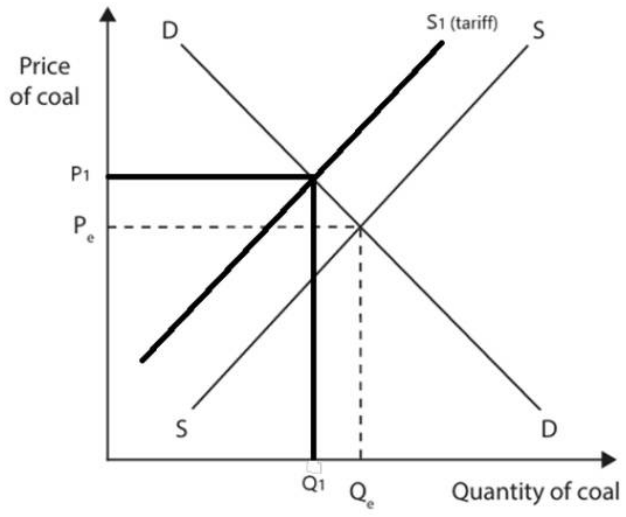

Question Number	Describe **one** benefit to a country of using quotas for imported goods. **Answer**	Mark
1(d)	**AO1 2 marks** Award 1 mark for reference to the benefit and 1 mark for the development of the benefit One benefit is quotas can protect domestic industries **(1)** due to restricting the quantity of certain imports **(1)** Accept any other appropriate response	**(2)**

Question Number	Calculate the **price in euros (€)** of a UK-manufactured smartphone priced at £750 when the exchange rate is £1 = €1.18. You are advised to show your working. **Answer**	Mark
1(e)	**A02 2 marks** Award 1 mark for calculation of the price in euros 750 × €1.18 **(1)** Award 1 mark for the correct answer = €885 **(1)** Award 2 marks if the correct answer is €885 even if no calculations are shown Award 1 mark if the answer given is 885 even if no calculations are shown Do not award marks for the formula.	**(2)**

Type MS · GDP and economic growth: meaning, uses and limits

Answer 8 of 9 · Question 1 part h · 6 marks

2025 JUN · Paper 02 (regional R) · extract 3 of 6 · find part h in this mark scheme extract

Question Number	Using the diagram below, draw the effects of the introduction of the tariff on the equilibrium price and quantity of coal in China. Label the new curve, the new equilibrium price and the new equilibrium quantity. **Answer**	Mark
1(f)	**AO2 3 marks** Award 1 mark for a leftward shift of the supply curve, labelled Award 1 mark for a higher equilibrium price, labelled Award 1 mark for a lower equilibrium quantity, labelled  	**(3)**

Type MS · GDP and economic growth: meaning, uses and limits

Answer 8 of 9 · Question 1 part h · 6 marks

2025 JUN · Paper 02 (regional R) · extract 4 of 6 · find part h in this mark scheme extract

Question Number	Explain **one** possible benefit of using pollution permits to protect the environment for a country such as the UK. **Answer**	Mark
1(g)	**AO2 3 marks** Award 1 mark for identifying a relevant benefit Award 1 mark for developing the benefit Award 1 mark for the response being in context • One benefit is that the health of UK citizens will be improved **(1).** Fewer available permits make airlines find ways to adopt cleaner technologies/improve efficiency. **(1)** This will help to reduce air pollution **(1)** • One benefit is that air pollution will decrease **(1).** This is because airlines are limited in how much they can pollute **(1)** so they must reduce their emissions to stay within limits **(1)** Accept any other appropriate response	**(3)**

Question Number	With reference to the data above and your knowledge of economics, analyse the benefits of using GDP as a measure of economic growth for a country such as India. **Indicative content**	Mark
1(h)	**AO2 (3 marks)/AO3 (3 marks)** **AO2 and AO3** • GDP helps to understand the size and overall economic health of India • This makes it easier to assess how well the Indian economy is doing and whether it is growing or shrinking • India's GDP growth rate of 7.2% in 2023 allows for easy comparison with other major economies, showing its position and progress on a global scale • The GDP growth figures, of 7.2% in 2023 and forecasted 6.9% in 2024, help the government assess the effectiveness of its economic policies • Rising GDP signals more income/output, helping the Indian government plan for infrastructure, health or education spending • Generally, if India's GDP is increasing, it means people might be earning more and living standards could be improving	**(6)**

Type MS · GDP and economic growth: meaning, uses and limits

2(f)	**AO2 3 marks** Award 1 mark for a left shift of supply, labelled Award 1 mark for higher equilibrium price, labelled Award 1 mark for lower equilibrium quantity, labelled  	(3)

Type MS · GDP and economic growth: meaning, uses and limits

Answer 9 of 9 · Question 2 part d · 2 marks

2025 NOV · Paper 02 · extract 5 of 7 · find part d in this mark scheme extract

Question Number	With reference to the data above and your knowledge of economics, assess how effective monetary policy is likely to be in increasing output for a country such as New Zealand. **Indicative content**
2(g)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • The central bank of New Zealand's recent reduction in the base rate to 5.25% could encourage businesses to borrow and invest, potentially boosting output in a difficult economic environment • The reduction makes loans more affordable for households, which can directly lead to increased spending and sales for firms • Lower interest rates may stimulate consumer spending, which has been weak, thereby increasing demand for goods and services and driving up production • Expansionary monetary policy can weaken the New Zealand currency, making exports more competitive and increasing output in export-driven industries • Monetary policy adjustments can be quickly implemented, providing a timely boost to economic output which is struggling with rising unemployment and low consumer confidence **AO4** • However, given the ongoing economic difficulties, including weak consumer confidence, the reduction in the base rate from 5.5% to 5.25% may not be sufficient to significantly boost spending and output • The small size of the rate cut may have only a minimal impact on boosting economic activity and increasing output • Firms in New Zealand may remain hesitant to invest despite the rate cut due to uncertainties like rising unemployment and reduced investment activity • Expansionary monetary policy can lead to inflationary pressures, which might offset gains in output by reducing purchasing power • Monetary policy may be less effective if the economy is already at or near full capacity, leading to limited increases in output

Type MS · GDP and economic growth: meaning, uses and limits

Answer 9 of 9 · Question 2 part d · 2 marks

2025 NOV · Paper 02 · extract 6 of 7 · find part d in this mark scheme extract

Level	Mark	Descriptor
	0	No rewardable material.
Level 1	1–3	• Demonstrates basic knowledge and understanding by developing relevant points. Limited application of economic terms, concepts, theories and calculations (AO2). • Information presented will lack selectivity and organisation. Interpretation of economic information will be limited, with a lack of analysis of issues (AO3). • Only offers one viewpoint, meaning there is an unbalanced and incomplete evaluation, showing limited understanding and awareness (AO4).
Level 2	4–6	• Demonstrates partial knowledge and understanding by developing relevant points. Partial application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate some selectivity and organisation. Interpretation of economic information will be good, with some analysis of issues (AO3). • Offers more than one viewpoint but the argument may lack balance, leading to an evaluation that may not demonstrate full understanding and awareness (AO4).
Level 3	7–9	• Demonstrates clear knowledge and understanding by developing relevant points. Appropriate application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate excellent selectivity and organisation. Interpretation of economic information will be excellent, with a thorough analysis of issues (AO3). • Offers more than one viewpoint. The argument is well balanced and coherent, leading to an evaluation that demonstrates full understanding and awareness (AO4).
