Type MS · Labour productivity: output per worker

Answer 1 of 2 · Question 2 part a · 1 mark

2023 NOV · Paper 01 · extract 1 of 6 · find part a in this mark scheme extract

2(a)	**AO2 1 mark** The only correct answer is: **C** 250 units A is not correct because labour productivity is measured in units B is not correct because this would be a multiplication instead of a division calculation and the wrong units are used D is not correct because this would be a multiplication instead of a division calculation	**(1)**

Question number	Which **one** of the following is a possible cause of positive economic growth? **Answer**	**Mark**
2(b)	**AO1 1 mark** The only correct answer is: **D** Increasing technological advancements A is not correct because this would reduce demand for goods and services, therefore reducing economic growth B is not correct because this would be more likely to reduce economic growth C is not correct because increasing unemployment would lead to fewer resources being utilised	**(1)**

Question number	What is meant by the term opportunity cost? **Answer**	**Mark**
2(c)	**AO1 2 marks** Award up to 2 marks for a correct definition The cost of the next best alternative **(1)** given up (when making a choice) **(1)** Accept any other appropriate response	**(2)**

Type MS · Labour productivity: output per worker

Answer 1 of 2 · Question 2 part a · 1 mark

2023 NOV · Paper 01 · extract 2 of 6 · find part a in this mark scheme extract

Question number	Calculate the **total fixed costs** for the firm in March. You are advised to show your working. **Answer**	Mark
2(d)	**AO2 2 marks** Award 1 mark for showing correct calculation 20 250 + 5 125 **(1)** Award 1 mark for calculating correct total fixed costs = 25 375 Tk **(1)** Award 2 marks if total fixed costs are correctly calculated as 25 375 Tk, even if no calculations are shown Award 1 mark if total fixed costs are calculated as 25 375, even if no calculations are shown Do not award marks for a formula	**(2)**

Question number	Describe **one** reason why an entrepreneur is a factor of production. **Answer**	Mark
2(e)	**AO1 2 marks** Award 1 mark for reference to the reason and 1 mark for development of the reason • An entrepreneur comes up with a business idea/takes a risk **(1)** therefore it is classed as enterprise **(1)** • An entrepreneur manages the other factors of production **(1)** in order to make goods/services **(1)** Accept any other appropriate response	**(2)**

Type MS · Labour productivity: output per worker

Answer 1 of 2 · Question 2 part a · 1 mark

2023 NOV · Paper 01 · extract 3 of 6 · find part a in this mark scheme extract

Question number	Explain **one** advantage for firms of an increase in the retirement age. **Answer**	Mark
2(f)	**AO2 3 marks** Award 1 mark for identifying a relevant advantage Award 1 mark for developing the advantage Award 1 mark for the advantage being in context • Firms will be able to retain their skilled workers **(1)** because workers will not be able to access their pension until the age of at least 57 **(1)** reducing the cost of recruitment and training **(1)** • Supply of labour may increase **(1)** because people may need to continue working for another two years **(1)** thus reducing the price of labour/wage rate for firms Accept any other appropriate response	**(3)**

Type MS · Labour productivity: output per worker

Answer 1 of 2 · Question 2 part a · 1 mark

2023 NOV · Paper 01 · extract 4 of 6 · find part a in this mark scheme extract

Question number	With reference to the data above and your knowledge of economics, assess the likely effectiveness of the tourist tax in dealing with negative externalities, such as overcrowding. **Indicative content**
2(g)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • Negative externalities are spillover effects on third parties due to consumption/production • Overcrowding in Venice may cause pollution, litter and congestion issues for residents and other visitors • One method of government intervention to reduce negative externalities is the use of taxation • A tourist tax is a compulsory financial charge made by the government on individuals • A tourist tax would make it more expensive to visit Venice • Therefore, it is likely to reduce the number of tourists in Venice from the estimated 24 million who visit each year • The higher the tourist tax, the fewer tourists there are likely to be, meaning at its highest charge of €10, the reduction should be greatest • As a result, the negative externality, such as overcrowding, may be reduced **AO4** • However, as Venice is so popular, some tourists may decide it is worth paying the tourist tax • This may especially be the case at the lower rates of tourist tax, where a tourist may not consider €3 unaffordable compared to the price of their trip • It takes time to collect the tourist tax, meaning there may be more congestion when people arrive in Venice • Even a reduction in numbers may not be enough to deal with the externalities caused by the high number of visitors each year • Those visitors who are prepared to pay the tourist tax will be generating revenue for the city which may be used to help combat the externalities in other ways • Other methods of government intervention may be more effective

Type MS · Labour productivity: output per worker

Answer 1 of 2 · Question 2 part a · 1 mark

2023 NOV · Paper 01 · extract 5 of 6 · find part a in this mark scheme extract

Level	Mark	Descriptor
	0	No rewardable material.
Level 1	1–3	• Demonstrates basic knowledge and understanding by developing relevant points. Limited application of economic terms, concepts, theories and calculations (AO2). • Information presented will lack selectivity and organisation. Interpretation of economic information will be limited, with a lack of analysis of issues (AO3). • Only offers one viewpoint, meaning there is an unbalanced and incomplete evaluation, showing limited understanding and awareness (AO4).
Level 2	4–6	• Demonstrates partial knowledge and understanding by developing relevant points. Partial application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate some selectivity and organisation. Interpretation of economic information will be good, with some analysis of issues (AO3). • Offers more than one viewpoint but the argument may lack balance, leading to an evaluation that may not demonstrate full understanding and awareness (AO4).
Level 3	7–9	• Demonstrates clear knowledge and understanding by developing relevant points. Appropriate application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate excellent selectivity and organisation. Interpretation of economic information will be excellent, with a thorough analysis of issues (AO3). • Offers more than one viewpoint. The argument is well balanced and coherent, leading to an evaluation that demonstrates full understanding and awareness (AO4).

Type MS · Labour productivity: output per worker

Answer 1 of 2 · Question 2 part a · 1 mark

2023 NOV · Paper 01 · extract 6 of 6 · find part a in this mark scheme extract

Question number	Which **one** of the following is a reason why a firm may decide to stay small? **Answer**	Mark

Type MS · Labour productivity: output per worker

Answer 2 of 2 · Question 1 part b · 1 mark

2023 JAN · Paper 01 · extract 1 of 6 · find part b in this mark scheme extract

1(a)	**AO1 1 mark** The only correct answer is: **B** A secondary sector firm A is not correct because a primary sector firm extracts natural resources C is not correct because a tertiary firm produces services D is not correct because this is the tertiary sector	**(1)**

Question number	What is the monthly labour productivity of the firm? **Answer**	**Mark**
1(b)	**AO2 1 mark** The only correct answer is: **B** 50 units A is not correct because this is 540 / 27,000 C is not correct because this is 540 + 27,000 D is not correct because this is 540 x 27,000	**(1)**

Question number	What is meant by the term division of labour? **Answer**	**Mark**
1(c)	**AO1 2 marks** Award 1 mark for reference to breaking production up and 1 mark for reference to employees are allocated only one task When a firm breaks up the production process **(1)** so that employees perform only one task **(1)** Accept any other appropriate response	**(2)**

Type MS · Labour productivity: output per worker

Answer 2 of 2 · Question 1 part b · 1 mark

2023 JAN · Paper 01 · extract 2 of 6 · find part b in this mark scheme extract

Question number	State one factor of production. **Answer**	Mark
1(d)	**AO1 1 mark** Award 1 mark for correct factor • Land/labour/capital/enterprise	**(1)**

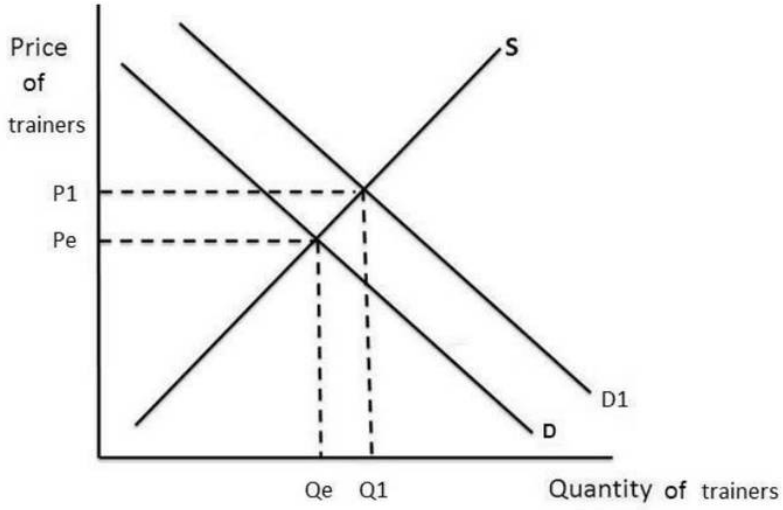

Question number	Define the term public sector. **Answer**	Mark
1(e)	**AO1 1 mark** Award 1 mark for a correct definition Government provision of goods/services Accept any other appropriate response	**(1)**

Question number	Calculate, to two decimal places, the price elasticity of demand (PED) for Yusef's portraits. You are advised to show your working. **Answer**	Mark
1(f)	**AO2 2 marks** Award 1 mark for showing correct calculation 3.2% / -2.5% **(1)** Award 1 mark for correct PED = -1.28 **(1)** Award 2 marks if PED is correctly calculated as -1.28, even if no calculations are shown Do not award marks for a formula	**(2)**

Type MS · Labour productivity: output per worker

Answer 2 of 2 · Question 1 part b · 1 mark

2023 JAN · Paper 01 · extract 3 of 6 · find part b in this mark scheme extract

Question number	Using the diagram below, draw the likely effects on the market after a popular celebrity was seen wearing trainers. Label the new curve, the new equilibrium price and the new equilibrium quantity. **Answer**	Mark
1(g)	**AO2 3 marks** Award 1 mark for rightward shift of demand, labelled Award 1 mark for higher equilibrium price, labelled Award 1 mark for higher equilibrium quantity, labelled  	(3)

Type MS · Labour productivity: output per worker

Answer 2 of 2 · Question 1 part b · 1 mark

2023 JAN · Paper 01 · extract 4 of 6 · find part b in this mark scheme extract

Question number	Explain one reason why Spice Cottage may not aim to maximise its profit. **Answer**	**Mark**
1(h)	**AO2 3 marks** Award 1 mark for identifying a reason Award 1 mark for developing the response Award 1 mark for the response being in context • A business may have alternative business objectives, such as survival/growth **(1)** by selling at a lower price, Spice Cottage may not maximise revenue and therefore may not maximise profit either **(1)** the business may therefore attract more consumers due to the lower price, which will help the new firm to survive/grow **(1)** Accept any other appropriate response	**(3)**

Type MS · Labour productivity: output per worker

Answer 2 of 2 · Question 1 part b · 1 mark

2023 JAN · Paper 01 · extract 5 of 6 · find part b in this mark scheme extract

Question number	With reference to the data above and your knowledge of economics, analyse why this knowledge could be useful to a firm such as Megabus. **Indicative content**
1(i)	**AO2 (3 marks)/AO3 (3 marks)** **AO2 and AO3** • These figures allow Megabus to calculate income elasticity of demand • Bus travel has an income elasticity of -15%/10% = -1.5 • The value of income elasticity is negative and therefore an inferior good • An inferior good is a product or service which has a decrease in quantity demand as incomes increase and increase in quantity demanded as incomes decrease (they have an inverse relationship) • Bus travel is income elastic because the percentage decrease in quantity demanded is greater than the percentage increase in income • This means that if passengers' incomes increase the demand for bus travel will fall but if incomes fall the demand for bus travel will rise • Awareness of this may allow Megabus to reduce/increase the services it offers in Canada, the US or the UK, depending on where incomes change • This could help to reduce costs if there is less demand for bus services • This can also help Megabus to plan employee requirements so it does not incur higher wage costs than necessary

Level	Mark	Descriptor
	0	No rewardable material.
Level 1	1–2	• Demonstrates basic knowledge and understanding by developing relevant points. Limited application of economic terms, concepts, theories and calculations (AO2). • Information presented will lack selectivity and organisation. Interpretation of economic information will be limited, with a lack of analysis of issues (AO3).
Level 2	3–4	• Demonstrates partial knowledge and understanding by developing relevant points. Partial application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate some selectivity and organisation. Interpretation of economic information will be good, with some analysis of issues (AO3).
Level 3	5–6	• Demonstrates clear knowledge and understanding by developing relevant points. Appropriate application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate excellent selectivity and organisation. Interpretation of economic information will be excellent, with a thorough analysis of issues (AO3).
