Question Number	Explain **one** advantage of using quotas for a country such as Brazil. Answer	Mark
3(c)	**AO2 3 marks** Award 1 mark for identifying an advantage Award 1 mark for developing the advantage Award 1 mark for the response being in context • One advantage is domestic producers face less competition **(1)**. By only allowing 600 million litres of ethanol into Brazil **(1)** domestic producers may gain more market share **(1)** • One advantage is higher revenue for domestic producers **(1)**. By restricting the amount of ethanol being imported into Brazil to 600 million litres **(1)** domestic producers might be able to increase sales **(1)** Accept any other appropriate response	**(3)**

Type MS · Benefits and costs of economic growth

Answer 1 of 10 · Question 3 part e · 9 marks

2021 JUN · Paper 02 · extract 3 of 6 · find part e in this mark scheme extract

Question Number	With reference to the data above and your knowledge of economics, analyse why the Slovenian Government might want to increase investment in healthcare. Indicative content
3(d)	**AO2 (3 marks)/AO3 (3 marks)** **AO2 and AO3** • Healthcare provides medicines and medical treatments to increase the overall health of the nation • The social benefit of providing healthcare to an individual often exceeds the private benefit through immunisation programmes • Investing €3.05bn in healthcare means that illnesses can be treated quickly therefore improving life expectancy across all age groups in Slovenian • This can help to reduce inequality and poverty by enabling the population to work and gain income from being fit and healthy • Having a healthier workforce reduces the amount of sickness absence and potentially improves labour productivity • This could result in economic growth and therefore help to improve standards of living in Slovenia • Healthcare also provides many jobs for healthcare workers including nurses and doctors which helps to reduce unemployment

Level	Mark	Descriptor
	0	No rewardable material.
Level 1	1–2	• Demonstrates basic knowledge and understanding by developing relevant points. Limited application of economic terms, concepts, theories and calculations (AO2). • Information presented will lack selectivity and organisation. Interpretation of economic information will be limited, with a lack of analysis of issues (AO3).
Level 2	3–4	• Demonstrates partial knowledge and understanding by developing relevant points. Partial application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate some selectivity and organisation. Interpretation of economic information will be good, with some analysis of issues (AO3).
Level 3	5–6	• Demonstrates clear knowledge and understanding by developing relevant points. Appropriate application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate excellent selectivity and organisation. Interpretation of economic information will be excellent, with a thorough analysis of issues (AO3).

2021 JUN · Paper 02 · extract 4 of 6 · find part e in this mark scheme extract

Question Number	With reference to the data above and your knowledge of economics, assess the likely benefits of economic growth for a country such as Turkmenistan. Indicative content
3(e)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • Economic growth is the increase in the level of output by a nation and is one of the main macroeconomic objectives • Turkmenistan has seen a 6.2% GDP growth rate which could result in an increase in employment levels in the oil and natural gas extraction industries • This is due to firms requiring more workers for production as the economy grows • Figure 4 shows an increase over time of GDP per capita which indicates that people have more income in Turkmenistan • Consumers might be able to purchase more goods and services thereby improving standards of living • Rapid economic growth could also help to reduce poverty in Turkmenistan particularly as over 50% of the labour force work in agriculture **AO4** • However, not all economic growth is good for an economy • If economic growth is too fast, the Turkmenistan economy may overheat • This could result in demand pull and cost push inflation • Economic growth could also result in more negative externalities such as pollution and waste • Turkmenistan relies heavily on the extraction of finite resources such as oil and gas which may cause a long-run depletion of natural resources • Rapid increases in GDP can lead to a higher level of inequality as the gains from growth may go to only a few people

Type MS · Benefits and costs of economic growth

Answer 1 of 10 · Question 3 part e · 9 marks

2021 JUN · Paper 02 · extract 5 of 6 · find part e in this mark scheme extract

2021 NOV · Paper 02 · extract 4 of 5 · find part g in this mark scheme extract

Question Number	**Indicative content**
1(h)	**AO2 (3 marks)/AO3 (3 marks)** **AO2 and AO3** • Monetary policy is the use of interest rates and money supply to control (aggregate) demand in the economy • Monetary policy can be used to reduce inflationary pressures in Kenya by the central bank increasing interest rates • An increase in interest rates above the current 9% base rate might help to reduce spending and investment in the economy thus slowing down economic activity and reducing inflationary pressure • There might be a greater reward for saving which may discourage consumers from spending helping to reduce (aggregate) demand and therefore inflation in the economy • A rise in interest rates may increase the value of the currency which could result in cheaper imports and therefore reducing inflation

Interpretation of economic information will be limited, with a lack of analysis of issues (AO3).
Level 2	3–4	• Demonstrates partial knowledge and understanding by developing relevant points. Partial application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate some selectivity and organisation. Interpretation of economic information will be good, with some analysis of issues (AO3).
Level 3	5–6	• Demonstrates clear knowledge and understanding by developing relevant points. Appropriate application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate excellent selectivity and organisation. Interpretation of economic information will be excellent, with a thorough analysis of issues (AO3).

Type MS · Benefits and costs of economic growth

Answer 6 of 10 · Question 1 part g · 3 marks

2021 NOV · Paper 02 · extract 5 of 5 · find part g in this mark scheme extract

Question Number	**Answer**	Mark

Type MS · Benefits and costs of economic growth

Answer 7 of 10 · Question 2 part b · 1 mark

2022 JUN · Paper 02 · extract 1 of 5 · find part b in this mark scheme extract

Number		
2(a)	**AO1 1 mark** The only correct answer is: **D** integration and interdependence of national economies A is not correct because globalisation encourages trade and specialisation B is not correct because trade barriers should be reduced C is not correct because increased globalisation reduces the need for national legislation	**(1)**

Question Number	**Answer**	Mark
2(b)	**AO1 1 mark** The only correct answer is: **B** An increase in environmental damage A is not correct because unemployment should fall due to more jobs being available in the economy C is not correct because investment is likely to increase due to economic growth and firms expanding D is not correct because tax revenues are likely to rise as more people have jobs/ firms are making more profit	**(1)**

Question Number	State one type of unemployment. **Answer**	Mark
2(c)	**AO1 1 mark** Award 1 mark for **one** type. • cyclical • structural • seasonal • voluntary • frictional Accept any other appropriate responses.	**(1)**

Type MS · Benefits and costs of economic growth

Answer 7 of 10 · Question 2 part b · 1 mark

2022 JUN · Paper 02 · extract 2 of 5 · find part b in this mark scheme extract

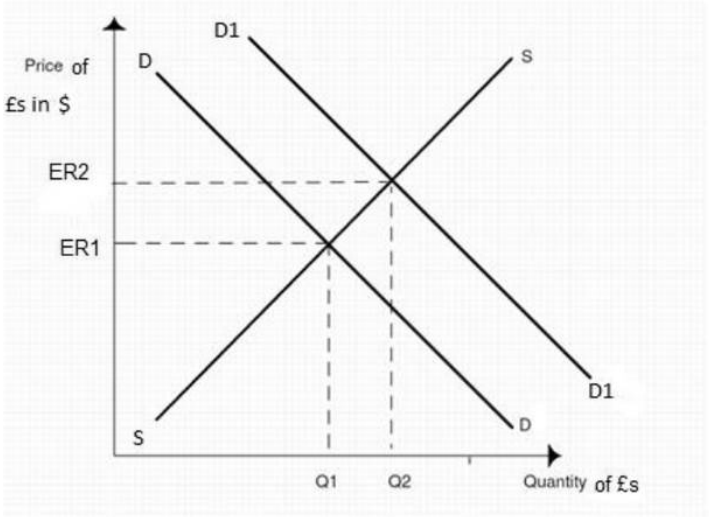

Question Number	What is meant by the term recovery? **Answer**	Mark
2(d)	**AO1 2 marks** Award 1 mark for reference to the economic cycle/recession and 1 mark for reference to increase in economic activity A phase in the economic cycle **(1)** where GDP starts to rise again/when consumers start to regain confidence/economic activity is on the increase **(1)** Accept any other appropriate response.	**(2)**

Question Number	Explain one impact of rising inflation on shoe leather costs for Nigeria. **Answer**	Mark
2(e)	**AO2 3 marks** Award 1 mark for identifying a relevant impact Award 1 mark for developing the impact Award 1 mark for the response being in context • One impact is that shoe leather costs may increase **(1).** Consumers will try to find cheaper bread and meat **(1).** This means that they will spend more time shopping around and looking for goods **(1)** Accept any other appropriate response.	**(3)**

Type MS · Benefits and costs of economic growth

Answer 7 of 10 · Question 2 part b · 1 mark

2022 JUN · Paper 02 · extract 3 of 5 · find part b in this mark scheme extract

Question Number	Draw the effects on the exchange rate of the UK pound (£) from an increase in exports to the US. Label the new curve, the new equilibrium exchange rate and the new equilibrium quantity. **Answer**	Mark
2(f)	**AO2 3 marks** Award 1 mark for right shift of demand curve, labelled Award 1 mark for higher equilibrium exchange rate, labelled Award 1 mark for higher equilibrium quantity, labelled  	**(3)**

Type MS · Benefits and costs of economic growth

Answer 7 of 10 · Question 2 part b · 1 mark

2022 JUN · Paper 02 · extract 4 of 5 · find part b in this mark scheme extract

Question Number	Assess the advantages of free trade to firms located within the EU. **Indicative content**	Mark
2(g)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • Free trade is a situation in which goods and services coming into or going out of a country/trade area are not controlled or taxed • The new free trade area consists of over 770 million people and trades over €88bn in goods and €34bn in services every year • Firms located within the EU would be able to access a much wider market for its goods and services thereby increasing sales • Mercosur is removing tariffs on 91% of EU goods on items such as clothing, wine, chemicals and canned peaches • This means that any EU firm operating in these areas will be able to export to the Mercosur area without additional tariffs and could increase revenues • Expansion into a new trading bloc could help to reduce risk for EU firms if demand falls within the EU **AO4** • However, free trade also means that EU firms will face greater competition from firms within the Mercosur area • EU firms may have increased competition from cheaper, low-cost firms within the Mercosur area that may have lower wage costs compared to EU firms • The EU has agreed to end 92% of tariffs on goods from the Mercosur area • This may have a negative impact on EU farmers particularly those involved in the production of beef, sugar and chicken • The overall impact will depend on the quality and price of the products made within the EU compared to the products made in the Mercosur area	**(9)**

Type MS · Benefits and costs of economic growth

Answer 7 of 10 · Question 2 part b · 1 mark

2022 JUN · Paper 02 · extract 5 of 5 · find part b in this mark scheme extract

Level	Mark	Descriptor
	0	No rewardable material.
Level 1	1–3	• Demonstrates basic knowledge and understanding by developing relevant points. Limited application of economic terms, concepts, theories and calculations (AO2). • Information presented will lack selectivity and organisation. Interpretation of economic information will be limited, with a lack of analysis of issues (AO3). • Only offers one viewpoint, meaning there is an unbalanced and incomplete evaluation, showing limited understanding and awareness (AO4).
Level 2	4–6	• Demonstrates partial knowledge and understanding by developing relevant points. Partial application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate some selectivity and organisation. Interpretation of economic information will be good, with some analysis of issues (AO3). • Offers more than one viewpoint but the argument may lack balance, leading to an evaluation that may not demonstrate full understanding and awareness (AO4).
Level 3	7–9	• Demonstrates clear knowledge and understanding by developing relevant points. Appropriate application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate excellent selectivity and organisation. Interpretation of economic information will be excellent, with a thorough analysis of issues (AO3). • Offers more than one viewpoint. The argument is well balanced and coherent, leading to an evaluation that demonstrates full understanding and awareness (AO4).

Question Number	**Answer**	Mark

Type MS · Benefits and costs of economic growth

Answer 8 of 10 · Question 1 part d · 2 marks

2023 JAN · Paper 02 (regional R) · extract 1 of 6 · find part d in this mark scheme extract

1(a)	**AO1 1 marks** The only correct answer is: **B** Unemployment A is not correct because this is measured by a % change in GDP C is not correct because this is decided by the government D is not correct because this is measured by the CPI	**(1)**

Question Number	Which **one** of the following is considered to be a progressive tax in the UK? **Answer**	Mark
1(b)	**AO1 1 mark** The only correct answer is: **A** Income tax B is not correct because this is an indirect tax/regressive tax C is not correct because these are taxes on individual items D is not correct because a set percentage is paid	**(1)**

Question Number	What is meant by the term deregulation? **Answer**	Mark
1(c)	**AO1 2 marks** Award 1 mark for reference to removal and 1 mark for reference to government controls The removal **(1)** of government controls **(1)** Accept any other appropriate response	**(2)**

Type MS · Benefits and costs of economic growth

Answer 8 of 10 · Question 1 part d · 2 marks

2023 JAN · Paper 02 (regional R) · extract 2 of 6 · find part d in this mark scheme extract

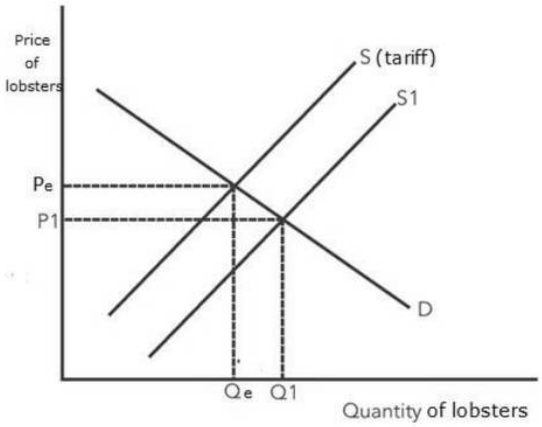

Question Number	Describe **one** negative impact of economic growth. **Answer**	Mark
1(d)	**AO1 2 marks** Award 1 mark for reference to environmental damage and 1 mark for reference to economic activity Environmental damage **(1)** caused by factories making more goods/services **(1)** Accept any other appropriate response	**(2)**

Question Number	Calculate the **price in euros (€)** of a UK manufactured car priced at £15 000 when the exchange rate is £1 = €1.10. You are advised to show your working. **Answer**	Mark
1(e)	**AO2 2 marks** Award 1 mark for showing the calculation £15 000 x €1.10 **(1)** Award 1 mark for the correct answer = €16 500 **(1)** Award 2 marks if the correct answer €16 500 is shown, with € sign, even if no calculations are shown Award 1 mark if correct answer 16 500 is shown, but with no € sign, with or without calculations Do not award marks for the formula	**(2)**

Type MS · Benefits and costs of economic growth

Answer 8 of 10 · Question 1 part d · 2 marks

2023 JAN · Paper 02 (regional R) · extract 3 of 6 · find part d in this mark scheme extract

Question Number	Using the diagram below, draw the effects of the decrease in the tariff on the equilibrium price and quantity of US lobster imports into the EU. Label the new curve, the new equilibrium price and new equilibrium quantity. **Answer**	Mark
1(f)	**AO2 3 marks** Award 1 mark for rightward shift of supply, labelled Award 1 mark for lower equilibrium price, labelled Award 1 mark for higher equilibrium quantity, labelled  	**(3)**

Type MS · Benefits and costs of economic growth

Answer 8 of 10 · Question 1 part d · 2 marks

2023 JAN · Paper 02 (regional R) · extract 4 of 6 · find part d in this mark scheme extract

Question Number	Explain the impact of wages rising faster than inflation on a country such as Mexico. **Answer**	Mark
1(g)	**AO2 3 marks** Award 1 mark for identifying a relevant impact Award 1 mark for developing the impact Award 1 mark for the response being in context • The impact is that wages can buy more goods/services **(1)**. This is because wages are rising at a faster rate than prices in Mexico **(1).** This could result in increased pressure on the rate of inflation **(1)** • The impact is that firms could see fewer wage demands **(1)**. This is because wages are rising at a faster rate than prices in Mexico **(1)**. Employees would be less likely to require higher wages to maintain standards of living **(1)** Accept any other appropriate response	**(3)**

Type MS · Benefits and costs of economic growth

Answer 8 of 10 · Question 1 part d · 2 marks

2023 JAN · Paper 02 (regional R) · extract 5 of 6 · find part d in this mark scheme extract

Question Number	Analyse the impact of education and training on the productive potential of a country such as Vietnam. **Indicative content**	Mark
1(h)	**AO2 (3 marks)/AO3 (3 marks)** **AO2 and AO3** • Education and training are examples of supply-side policies designed to improve the productive potential of an economy • Investment in education and training in IT can help unemployed workers to acquire new skills so they can gain employment • Many unemployed workers lack the necessary skills needed to get a job, especially older workers who may need retraining to gain digital skills • Offering training courses in IT could help to reduce structural unemployment within Vietnam • A better educated and trained workforce could enable Vietnam to produce more goods and services using IT skills thus increasing the productive potential of the country	**(6)**

Question Number	Using the diagram below, draw and label the remaining **three** stages of the economic cycle in the boxes on the diagram. **Answer**	Mark
2(f)	**AO2 3 marks** Award 1 mark for downturn, labelled Award 1 mark for recession, labelled Award 1 mark for recovery, labelled  	**(3)**

Type MS · Benefits and costs of economic growth

Answer 9 of 10 · Question 2 part c · 1 mark

2023 JAN · Paper 02 · extract 4 of 6 · find part c in this mark scheme extract

Question Number	With reference to the data above and your knowledge of economics, assess the likely impact on the demand for US exports to Australia after the depreciation of the US dollar. **Indicative content**	Mark
2(g)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • A depreciation is where the value of currency falls relative to another currency • A depreciation of the US dollar against the Australian dollar may result in an increase in the amount of exports of goods between the US and Australia • This is because US exports are now cheaper to purchase as fewer Australian dollars are required to be exchanged for US dollars • This could result in more exports of machinery, vehicles, medical instruments and aircraft between the two countries • This could further improve the trade balance between the US and Australia if more exports are traded compared to imports **AO4** • However, a depreciation of the US dollar may not result in an overall increase in exports of goods between the US and Australia • The impact will depend on the size and duration of the depreciation • The impact will also depend on PED for US exports • The amount of goods traded between the two countries will not just depend on the exchange rate between the US and Australia • The quality of US exports is a factor in whether Australia will purchase more US made goods, not just the exchange rate	**(9)**

Type MS · Benefits and costs of economic growth

Answer 9 of 10 · Question 2 part c · 1 mark

2023 JAN · Paper 02 · extract 5 of 6 · find part c in this mark scheme extract

2023 NOV · Paper 02 · extract 3 of 6 · find part e in this mark scheme extract

Question Number	Using the diagram below, draw the effect of an increase in UK exports to the US on the equilibrium exchange rate of the UK pound (£). Label the new curve, the new equilibrium exchange rate and the new equilibrium quantity. **Answer**	Mark
2(f)	**AO2 3 marks** Award 1 mark for rightward shift of demand, labelled Award 1 mark for higher equilibrium exchange rate, labelled Award 1 mark for higher equilibrium quantity, labelled  	**(3)**

Type MS · Benefits and costs of economic growth

Answer 10 of 10 · Question 2 part e · 3 marks

2023 NOV · Paper 02 · extract 4 of 6 · find part e in this mark scheme extract

Question Number	With reference to the data above and your knowledge of economics, assess the disadvantages of higher business tax rates on investment in a country such as the UK. **Indicative content**	Mark
2(g)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • Business tax is a direct tax on the profit of a firm • Business tax rates in the UK have increased from 19% to 25% in April 2023 • Increasing business tax rates by such a large percent (6%) may result in less tax revenue for the UK Government if firms do not locate in the UK or if UK firms relocate to the US • The US has a much lower tax rate of 21% in comparison to the UK which could be very attractive to MNCs • Firms such as Associated British Foods will have to pay £20m more in taxation • This could result in the firm having less to invest in the UK economy • This is likely to result in a negative impact on GDP and employment if many firms have less profit to invest and expand in the UK **AO4** • However, increases in business tax rates can help provide the UK Government with an additional £18bn in tax revenue • This could be used by the UK Government to invest into public services for the UK population which might offset any reductions in investment by the private sector • The UK's tax rate of 25% is comparable to China and France and is still significantly lower than Germany's 30% tax rate • This could mean that the impact of the higher rates of business tax is minimal • The level of investment is affected by a range of factors, such as business confidence and not just the rate of business taxes in a country	**(9)**

Type MS · Benefits and costs of economic growth
