Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 1 of 15 · Question 3 part c · 3 marks

2021 JUN · Paper 02 · extract 1 of 6 · find part c in this mark scheme extract

3(a)	**AO2 1 mark** The only correct answer is: **C** £218.2bn A is not correct because this is calculated by Sales tax (VAT) + Income tax B is not correct because this figure is calculated by Income tax + Tariffs D is not correct because this is calculated by Tariffs + Business tax	**(1)**

Question Number	Member countries of a trading bloc agree to Answer	Mark
3(b)	**AO1 1 mark** The only correct answer is: **A** trade together with low or no barriers B is not correct because countries in a trading bloc can have different rates of income tax C is not correct because members can trade with any country outside of the trading bloc D is not correct because member countries do not always have common borders	**(1)**

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 1 of 15 · Question 3 part c · 3 marks

2021 JUN · Paper 02 · extract 2 of 6 · find part c in this mark scheme extract

Question Number	Explain **one** advantage of using quotas for a country such as Brazil. Answer	Mark
3(c)	**AO2 3 marks** Award 1 mark for identifying an advantage Award 1 mark for developing the advantage Award 1 mark for the response being in context • One advantage is domestic producers face less competition **(1)**. By only allowing 600 million litres of ethanol into Brazil **(1)** domestic producers may gain more market share **(1)** • One advantage is higher revenue for domestic producers **(1)**. By restricting the amount of ethanol being imported into Brazil to 600 million litres **(1)** domestic producers might be able to increase sales **(1)** Accept any other appropriate response	**(3)**

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 1 of 15 · Question 3 part c · 3 marks

2021 JUN · Paper 02 · extract 3 of 6 · find part c in this mark scheme extract

Question Number	With reference to the data above and your knowledge of economics, analyse why the Slovenian Government might want to increase investment in healthcare. Indicative content
3(d)	**AO2 (3 marks)/AO3 (3 marks)** **AO2 and AO3** • Healthcare provides medicines and medical treatments to increase the overall health of the nation • The social benefit of providing healthcare to an individual often exceeds the private benefit through immunisation programmes • Investing €3.05bn in healthcare means that illnesses can be treated quickly therefore improving life expectancy across all age groups in Slovenian • This can help to reduce inequality and poverty by enabling the population to work and gain income from being fit and healthy • Having a healthier workforce reduces the amount of sickness absence and potentially improves labour productivity • This could result in economic growth and therefore help to improve standards of living in Slovenia • Healthcare also provides many jobs for healthcare workers including nurses and doctors which helps to reduce unemployment

Level	Mark	Descriptor
	0	No rewardable material.
Level 1	1–2	• Demonstrates basic knowledge and understanding by developing relevant points. Limited application of economic terms, concepts, theories and calculations (AO2). • Information presented will lack selectivity and organisation. Interpretation of economic information will be limited, with a lack of analysis of issues (AO3).
Level 2	3–4	• Demonstrates partial knowledge and understanding by developing relevant points. Partial application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate some selectivity and organisation. Interpretation of economic information will be good, with some analysis of issues (AO3).
Level 3	5–6	• Demonstrates clear knowledge and understanding by developing relevant points. Appropriate application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate excellent selectivity and organisation. Interpretation of economic information will be excellent, with a thorough analysis of issues (AO3).

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 1 of 15 · Question 3 part c · 3 marks

2021 JUN · Paper 02 · extract 4 of 6 · find part c in this mark scheme extract

Question Number	With reference to the data above and your knowledge of economics, assess the likely benefits of economic growth for a country such as Turkmenistan. Indicative content
3(e)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • Economic growth is the increase in the level of output by a nation and is one of the main macroeconomic objectives • Turkmenistan has seen a 6.2% GDP growth rate which could result in an increase in employment levels in the oil and natural gas extraction industries • This is due to firms requiring more workers for production as the economy grows • Figure 4 shows an increase over time of GDP per capita which indicates that people have more income in Turkmenistan • Consumers might be able to purchase more goods and services thereby improving standards of living • Rapid economic growth could also help to reduce poverty in Turkmenistan particularly as over 50% of the labour force work in agriculture **AO4** • However, not all economic growth is good for an economy • If economic growth is too fast, the Turkmenistan economy may overheat • This could result in demand pull and cost push inflation • Economic growth could also result in more negative externalities such as pollution and waste • Turkmenistan relies heavily on the extraction of finite resources such as oil and gas which may cause a long-run depletion of natural resources • Rapid increases in GDP can lead to a higher level of inequality as the gains from growth may go to only a few people

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Question Number	Answer	Mark
2(e)	**AO2 3 marks** Award 1 mark for identifying a relevant reason Award 1 mark for developing the reason Award 1 mark for the response being in context • One reason is that there may be increased demand for German exports **(1)** if consumers overseas are responsive to the cheaper export prices **(1)**. This has a positive impact on the current account of Germany if there is an overall increase in net exports **(1)** • One reason is that this may reduce the quantity of imports into Germany **(1)** as it is now relatively more expensive to import goods due to the fall in the euro **(1)**. This could result in a decrease in net imports **(1)** Accept any other appropriate response	**(3)**

Question Number	Answer	Mark
2(f)	**AO2 3 marks** Award 1 mark for identifying a possible way Award 1 mark for developing the possible way Award 1 mark for the response being in context • One way is that privatisation introduces competition into the airport market **(1)**. It creates incentives to lower unit costs **(1)** to increase productivity and profit **(1)** • One way is that privatisation may improve the quality of the factors of production of airports **(1)**. This means that an airport can produce more services **(1)** without increasing inputs **(1)** Accept any other appropriate response	**(3)**

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 5 of 15 · Question 2 part a · 1 mark

2020 NOV · Paper 02 · extract 3 of 5 · find part a in this mark scheme extract

Question Number	Indicative content	Mark
2(g)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • Benefit payments are payments given to people to ensure they have a minimum standard of living • These include benefits such as unemployment benefit, state pension and in this case, child benefit • The advantages are that benefit payments help to reduce inequality and reduce relative poverty as the money is given directly to people on no or low-incomes • Benefit payments will give those on low income a better living standard and help contribute to a more cohesive society • Canada estimates that 300,000 children have been lifted out of poverty due to the child benefit payments • This could be due to more working mothers being able to return to work and therefore being able to contribute to society **AO4** • However, increasing welfare benefits creates a disincentive to work • Many families may face the poverty trap and are often better off on benefits than working • The cost of the benefits has to be borne by society so there is often an opportunity cost to a country from using benefit payment to redistribute income • Not all people are entitled to receive the child benefit which could result in resentment • There are other methods which might be more effective in redistributing income, such as progressive taxation or investment in education • The Canadian Government should use a combination of methods to reduce inequality and poverty	**(9)**

1(f)	**AO2 3 marks** Award 1 mark for rightward shift of supply curve, labelled Award 1 mark for lower equilibrium price, labelled Award 1 mark for higher equilibrium quantity, labelled  	**(3)**

Question Number	Explain **one** benefit to the UK Government of providing parks. Answer	Mark
1(g)	**AO2 3 marks** Award 1 mark for identifying a relevant benefit Award 1 mark for developing the benefit Award 1 mark for the response being in context • One benefit is that national parks can protect a large area of land **(1)**. The Lake District National Park has over 12% of woodland that is protected **(1)**. Restrictions are in place to stop business activities that could damage the environment **(1)** • One benefit is that national parks can be used for recreational purposes **(1)**. Over 19.17 million people visited the Lake District National Park in 2018 **(1)** increasing tourism for local firms **(1)** Accept any other appropriate response	**(3)**

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 6 of 15 · Question 1 part b · 1 mark

2021 JUN · Paper 02 · extract 4 of 5 · find part b in this mark scheme extract

Question Number	With reference to the data above and your knowledge of economics, analyse the benefits of FDI for a country such as Ireland. Indicative content
1(h)	**AO2 (3 marks)/AO3 (3 marks)** **AO2 and AO3** • FDI is the value of inward investment from other countries/firms into a country • FDI can bring in capital investment to Ireland as MNCs will need buildings, equipment and infrastructure to operate within the country • Jobs can be created by MNCs which reduces unemployment and increases disposable income in Ireland • There may be increased demand for the products or services of local Irish firms that supply MNCs • MNCs may train up the local workforce and MNCs often bring new technologies, techniques and methods • Increased employment and wages should lead to increased tax for the Irish Government • Exports may also increase therefore improving the balance of payments for Ireland

Level	Mark	Descriptor

Level 1	1–2	• Demonstrates basic knowledge and understanding by developing relevant points. Limited application of economic terms, concepts, theories and calculations (AO2). • Information presented will lack selectivity and organisation. Interpretation of economic information will be limited, with a lack of analysis of issues (AO3).
Level 2	3–4	• Demonstrates partial knowledge and understanding by developing relevant points. Partial application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate some selectivity and organisation. Interpretation of economic information will be good, with some analysis of issues (AO3).
Level 3	5–6	• Demonstrates clear knowledge and understanding by developing relevant points. Appropriate application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate excellent selectivity an organisation. Interpretation of economic information will be excellent, with a thorough analysis of issues (AO3).

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 6 of 15 · Question 1 part b · 1 mark

2021 JUN · Paper 02 · extract 5 of 5 · find part b in this mark scheme extract

Question Number	An appreciation in a country's exchange rate is most likely to lead to which **one** of the following? Answer	Mark

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 7 of 15 · Question 1 part a · 1 mark

2021 NOV · Paper 02 · extract 1 of 5 · find part a in this mark scheme extract

1(a)	**AO1 1 mark** The only correct answer is: **D** Quota A is not correct because this refers to currency and not a product B is not correct because this relates to price rather than quantity C is not correct because this defines a good not provided by the market	**(1)**

Question Number	**Answer**	Mark
1(b)	**AO1 1 mark** The only correct answer is: **C** Supply-side A is not correct because this refers to exchange of goods and services B is not correct because this concerns government revenue and expenditure D is not correct because this is the price of one currency in terms of another	**(1)**

Question Number	**Answer**	Mark
1(c)	**AO1 2 marks** Award 1 mark for reference to GDP/economic cycle and 1 mark for reference to speed A period where GDP is still growing **(1)** but more slowly **(1)** Accept any other appropriate response	**(2)**

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 7 of 15 · Question 1 part a · 1 mark

2021 NOV · Paper 02 · extract 2 of 5 · find part a in this mark scheme extract

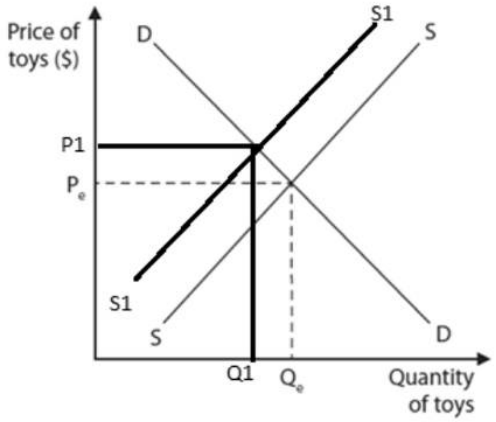

Question Number	**Answer**	Mark
1(d)	**AO1 2 marks** Award 1 mark for reference to new industry and 1 mark for reference to not well known in the market New/fledgling industries **(1)** that have yet to establish themselves **(1)** Accept any other appropriate response	**(2)**

Question Number	**Answer**	Mark
1(e)	**A02 2 marks** Award 1 mark for showing the calculation £73m x €1.08 **(1)** Award 1 mark for the correct answer. = €78 840 000 or €78.84m **(1)** Award 2 marks for the correct answer of €78 840 000 or €78.84m even if no calculations are shown Award 1 mark if the answer given is 78 840 000 or 78.84m with or without calculations shown Do not award marks for the formula	**(2)**

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 7 of 15 · Question 1 part a · 1 mark

2021 NOV · Paper 02 · extract 3 of 5 · find part a in this mark scheme extract

Question Number	Answer	Mark
1(f)	**AO2 3 marks** Award 1 mark for leftward shift of supply curve, labelled Award 1 mark for higher equilibrium price, labelled Award 1 mark for lower equilibrium quantity, labelled  **Figure 1**	**(3)**

Question Number	Answer	Mark
1(g)	**AO2 3 marks** Award 1 mark for identifying a relevant disadvantage Award 1 mark for developing the disadvantage Award 1 mark for the response being in context • One disadvantage is an increase in inflation **(1)**. Growth of 4.9% in Malaysia means that firms will require more resources to make more goods and services **(1)**. If there is a shortage of resources then this might result in cost push inflation **(1)** • One disadvantage is the damage caused to the environment **(1)**. Growth of 4.9% means more resources will be required to make goods and services **(1)**. This could result in an increase in pollution levels within Malaysia **(1)** Accept any other appropriate response	**(3)**

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 7 of 15 · Question 1 part a · 1 mark

2021 NOV · Paper 02 · extract 4 of 5 · find part a in this mark scheme extract

Question Number	**Indicative content**
1(h)	**AO2 (3 marks)/AO3 (3 marks)** **AO2 and AO3** • Monetary policy is the use of interest rates and money supply to control (aggregate) demand in the economy • Monetary policy can be used to reduce inflationary pressures in Kenya by the central bank increasing interest rates • An increase in interest rates above the current 9% base rate might help to reduce spending and investment in the economy thus slowing down economic activity and reducing inflationary pressure • There might be a greater reward for saving which may discourage consumers from spending helping to reduce (aggregate) demand and therefore inflation in the economy • A rise in interest rates may increase the value of the currency which could result in cheaper imports and therefore reducing inflation

Level	**Mark**	**Descriptor**
	0	No rewardable material.
Level 1	1–2	Demonstrates basic knowledge and understanding by developing relevant points. Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 7 of 15 · Question 1 part a · 1 mark

2021 NOV · Paper 02 · extract 5 of 5 · find part a in this mark scheme extract

Question Number	**Answer**	Mark

3(a)	**AO2 1 mark** The only correct answer is: **B** £321.7bn A is not correct because it includes indirect tax C is not correct because it does not include business tax D is not correct because it does not include income tax	**(1)**

Question Number	**Answer**	Mark
3(b)	**AO1 1 mark** The only correct answer is: **D** selling its own currency A is not correct because this will increase demand for its currency B is not correct because this will increase demand for your own currency C is not correct because this will cause it to appreciate	**(1)**

Question Number	**Answer**	Mark
3(c)	**AO2 3 marks** Award 1 mark for identifying an advantage Award 1 mark for developing the advantage Award 1 mark for the response being in context • One advantage is an increase in exports **(1)**. Subsiding clothing by 4% can make exports more competitive **(1)**. This can result in greater export earnings and improve the current account **(1)** • One advantage is more domestic firms may enter the market **(1)**. Subsiding home appliances by up to 10% makes them more price competitive **(1)**. This can result in an increase in employment **(1)** Accept any other appropriate response	**(3)**

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 8 of 15 · Question 3 part c · 3 marks

2021 NOV · Paper 02 · extract 2 of 5 · find part c in this mark scheme extract

Question Number	**Indicative content**
3(d)	**AO2 (3 marks)/AO3 (3 marks)** **AO2 and AO3** • Taxation can be imposed on activities that damage the environment • Taxation is used to ensure consumers and producers pay the full social cost of producing a good or service • Increasing taxation on petrol and diesel fuel would substantially increase the price of fuel for road users which could reduce the amount of journeys taken by cars and other road vehicles • Increased taxation could also raise additional revenue for the UK Government • This could be used to finance pollution reduction schemes and improve air quality in the UK • Taxation provides a market incentive for firms and consumers to switch to alternative forms of transport that may not cause as much environmental damage

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 8 of 15 · Question 3 part c · 3 marks

2021 NOV · Paper 02 · extract 3 of 5 · find part c in this mark scheme extract

Question Number	**Indicative content**
3(e)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • GDP is the market value of all final goods and services produced in a year • GDP is used to measure economic growth all over the world • This means that comparisons can be easily made between the growth rates of Ghana and different countries over time • Ghana has double the GDP growth rate compared to other emerging economies • GDP is also used as an indicator of a nation's overall standard of living because, generally, a nation's standard of living increases as GDP increases • Ghana was predicted to have a 8.8% GDP growth rate in 2019 and this could indicate an increase in living standards for the population **AO4** • However, using GDP to measure growth does have some limitations • Increases in inflation could distort the true rate of economic growth in Ghana and only real GDP figures reflect the true rate of economic growth in an economy • GDP does not include figures for the hidden or informal economy which are not included in GDP figures • GDP does not take into account external costs such as environmental costs and as a result GDP does not measure how these impact on the wellbeing of society • Ghana is becoming heavily reliant on oil which can have many associated external environmental costs • GDP figures do not reflect how additional income is distributed between the population of Ghana and much of the growth may not be evenly distributed amongst the population of Ghana who still may remain in poverty

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 8 of 15 · Question 3 part c · 3 marks

2022 JUN · Paper 02 (regional R) · extract 3 of 7 · find part c in this mark scheme extract

Question Number	Analyse the impact of deflation on consumer confidence in a country such as Singapore. **Indicative content**	Mark
3(d)	**AO2 (3 marks)/AO3 (3 marks)** **AO2 and AO3** • Deflation is a persistent fall in the general price level of goods and services/ when the inflation rate is negative • Consumer confidence is the outlook that consumers have towards the economy • In the case of Singapore, the prices of airfares and holidays have declined due to the government lockdown as people cannot travel and demand has fallen sharply • Changes in prices of goods and services often cause uncertainty and may influence the confidence of consumers • Changes in prices might make consumers more anxious and cautious • This results in a fall in consumer confidence as consumers worry about the state of the economy • In times of deflation consumers will postpone spending particularly on consumer durables such as holidays and cars • This is because consumers expect prices to fall even further or wait until the economy improves before buying goods	**(6)**

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 9 of 15 · Question 3 part c · 3 marks

2022 JUN · Paper 02 (regional R) · extract 5 of 7 · find part c in this mark scheme extract

Question Number	Assess the advantages of using benefit payments to redistribute income in a country such as the UK. **Indicative content**	Mark
3(e)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • Benefit payments are payments given to people to ensure they have a minimum standard of living • These include benefits such as Universal Credit • Universal Credit involves giving money directly to people on no or low incomes • For example, people aged 25 and under can receive £342.72 and this can be used to pay for living costs • This will give those on low incomes a better living standard and the ability to be able to purchase basic necessities • Benefits can help to contribute to a more cohesive society and reduce inequality within a society by redistributing income • Benefit payments can help to reduce relative poverty in the UK **AO4** • However, using benefit payments may create a disincentive to work • Many families may face the poverty trap and are often better off on benefit payments than working • The cost of the benefit payments has to be borne by society so there is often an opportunity cost to a country from using benefit payments to redistribute income • There are other methods which might be more effective in redistributing income, such as progressive taxation or investment in education • The UK Government should use a combination of methods to reduce inequality and poverty	**(9)**

Question Number	Calculate, to two decimal places, the percentage increase in GDP per capita between 2018 and 2019. **Answer**	Mark

3(a)	**AO2 1 mark** The only correct answer is: **D** 5% A is not correct because this answer is calculated by 1 - 5% B is not correct because this answer is calculated by 1 + 5% C is not correct because this answer is calculated by (50/$1050) x 100	**(1)**

Question Number	Which **one** of the following terms means someone not having enough resources to meet all of their basic needs? Answer	Mark
3(b)	**AO1 1 mark** The only correct answer is: **C** Absolute poverty A is not correct because this describes the range of incomes in an economy B is not correct because this describes someone having a lower standard of living in comparison to the average person in society D is not correct because this refers to the gap between the rich and the poor	**(1)**

Question Number	Explain one possible reason why the US Government introduced this subsidy. Answer	Mark
3(c)	**AO2 3 marks** Award 1 mark for identifying a relevant reason Award 1 mark for developing the reason Award 1 mark for the response being in context • One reason is to protect domestic firms **(1).** Subsidies allow firms to lower prices **(1)** encouraging consumers to switch to US-manufactured cars with US-made batteries **(1).** • One reason is to increase exports **(1)**. Subsiding cars by $500 can make exports of cars with US-made batteries more competitive **(1)**. This can result in greater export earnings and improve the current account **(1).** Accept any other appropriate response	**(3)**

13

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 10 of 15 · Question 3 part c · 3 marks

2023 JUN · Paper 02 (regional R) · extract 2 of 6 · find part c in this mark scheme extract

Question Number	With reference to the data above and your knowledge of economics, analyse the benefits of free trade for domestic firms located within the RCEP. Indicative content	Mark
3(d)	**AO2 (3 marks)/AO3 (3 marks)** **AO2 and AO3** • Free trade is a situation in which goods and services coming into or going out of a country/trade area are not controlled or taxed • The RCEP accounts for nearly 30% of global GDP and has 15 member countries • Firms located within the RCEP would be able to easily access a much wider market for their goods and services in the other member countries thereby increasing sales • Expansion into new countries without any trade barriers could help to reduce risk if demand falls within their own country • Tariffs will be removed for trade between all 15 member countries • Therefore any firms operating within the free trade area will be able to export to the other countries without these additional costs • Trade within the RCEP countries could allow firms to obtain essential inputs at a much lower cost than can be found domestically	**(6)**

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 10 of 15 · Question 3 part c · 3 marks

2023 JUN · Paper 02 (regional R) · extract 4 of 6 · find part c in this mark scheme extract

Question Number	With reference to the data above and your knowledge of economics, assess the impact of rising unemployment rates in the North East of England. Indicative content	Mark
3(e)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • Unemployment occurs when people of working age who are both willing and able to work cannot find a job • Rising levels of unemployment such as 5.3% will result in lower economic growth as a large part of the workforce will be unproductive in the North East of England • There will be a much greater burden on the UK Government to provide benefits to the unemployed in the region • At the same time tax revenues in the North East will be lower meaning less is available to spend elsewhere • The UK Government may have to provide more education and training schemes to help people enter employment • There may be an increase in relative poverty within the region as unemployed workers have no income apart from benefits from the UK Government **AO4** • However, high rates of unemployment may help some firms compete • Some firms within the North East may find it easier to recruit from a larger pool of workers due to the 5.3% unemployment rate • Some firms may see a reduction in labour costs if there are high levels of unemployment due to fewer wage demands • The number of people claiming benefits did in fact fall indicating that perhaps the rise in the unemployment rate was due to voluntary unemployment • Therefore the impact might not as be as severe if this was the case • The overall impact will depend upon the type of unemployment, the duration and the state of the economy in the North East of England	**(9)**

Question Number	Using the diagram below, draw the effects of a decrease in UK exports to the US on the equilibrium exchange rate of UK pounds (£). Label the new curve, the new equilibrium exchange rate and the new equilibrium quantity. Answer	Mark
1(f)	**AO2 3 marks** Award 1 mark for leftward shift of demand curve, labelled Award 1 mark for lower equilibrium exchange rate, labelled Award 1 mark for lower equilibrium quantity, labelled  	**(3)**

Question Number	Explain one effect of rising inflation on menu costs in the UK. Answer	Mark
1(g)	**AO2 3 marks** Award 1 mark for identifying a relevant effect Award 1 mark for developing the effect Award 1 mark for the response being in context • One effect is that menu costs may increase **(1).** When inflation is high, prices need changing frequently **(1).** Firms have to spend money to print new brochures/update websites with the higher prices **(1)** Accept any other appropriate response.	**(3)**

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 11 of 15 · Question 1 part h · 6 marks

2023 JUN · Paper 02 · extract 4 of 5 · find part h in this mark scheme extract

Question Number	Analyse the possible benefits for Columbia of having import quotas. Indicative content	Mark
1(h)	**AO2 (3 marks)/AO3 (3 marks)** **AO2 and AO3** • Quotas are physical limits on the quantity of imports allowed into a country • Quotas on rice might help to protect domestic rice farmers • By restricting the amount of rice imported into Columbia domestic rice farmers may gain more market share • This could result in higher revenues for domestic rice farmers • Rice is a staple food in Columbia therefore is of national importance • Therefore, domestic rice farmers might be able to increase the supply of rice to meet any shortages if imports are restricted by quotas	**(6)**

Level	Mark	Descriptor

Question Number	With reference to the data above and your knowledge of economics, analyse the likely benefits of globalisation for clothing manufacturers. **Indicative content**	Mark
3(d)	**AO2 (3 marks)/AO3 (3 marks)** **AO2 and AO3** • Globalisation has opened new markets for producers to sell their goods and services to • This has created new opportunities for clothing producers in China and Bangladesh to expand their customer base and increase their sales revenue • It has enabled clothing producers to use cheaper labour and raw materials in China and Bangladesh • This has led to a reduction in production costs for clothing which has increased profitability for producers • Globalisation has enabled clothing producers to benefit from economies of scale • As production volumes of clothing increase the cost per unit decreases which can lead to lower prices for consumers and increased profits for the producers • Reduced costs of communication have occurred as technology has enabled producers to easily trade with other firms in the clothing supply chain	**(6)**

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 12 of 15 · Question 3 part e · 9 marks

2024 JUN · Paper 02 (regional R) · extract 4 of 6 · find part e in this mark scheme extract

Question Number	With reference to the data above and your knowledge of economics, assess the possible benefits for the Brazilian economy of introducing a tariff on tyres. **Indicative content**	Mark
3(e)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • A tariff is a tax on imported goods and services • The 16% tariff may have been introduced to protect the domestic tyre industry from foreign competition • By making imported tyres more expensive the tariff can make domestic tyres more competitive and help to support jobs in the domestic industry • The tariff may have been introduced to address trade imbalances • Brazil may be running a trade deficit therefore by increasing the cost of imports, the tariff can help to reduce imports • The 16% tariff may be to generate government revenue. The revenue generated from the tariff can be used to fund public services or pay off government debt **AO4** • However, tariffs can reduce competition in the tyre market as Brazilian producers have less incentive to improve quality and lower prices • This could lead to lower quality tyres being produced domestically and less innovation in the market • Other countries may respond to the tariff by imposing their own tariffs on Brazilian goods, leading to a trade war that could harm both countries' economies • This could lead to a decrease in the overall volume of trade and a reduction in economic growth • A tariff on imported tyres would likely result in higher prices for consumers • As the cost of imported tyres increases Brazilian tyre producers may also increase their prices leading to higher prices for all types of tyres	**(9)**

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 13 of 15 · Question 2 part g · 9 marks

2024 JUN · Paper 02 · extract 5 of 7 · find part g in this mark scheme extract

Question Number	With reference to the data above and your knowledge of economics, assess the possible benefits for the US of giving subsidies for green technology. **Indicative content**	Mark
2(g)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • Subsidies are payments by the government to suppliers that reduce their costs • Subsidies can be used to promote domestic green technology industries that are deemed important for economic and social objectives • The $369bn can be used to encourage the production of renewable energy in the US producing batteries, solar panels and wind turbines • Subsidies can be used to encourage exports, by making domestic goods such as solar panels, more competitive on the global market thereby reducing trade deficits • Subsidies can be used to protect domestic employment by supporting US industries that might otherwise struggle to compete with foreign rivals in China • It may help to create new factories and millions of jobs as well as in related industries, such as manufacturing and construction, if green technology firms are attracted to the US to take advantage of the subsidies **AO4** • However, subsidies may create a dependence on the US Government which can make it difficult for these projects to be self-sustaining in the long-term • Subsidies can be expensive for the US Government and may divert funds away from other important priorities • Subsidies may be allocated inefficiently and may not be targeted towards the most effective or innovative green technologies • There could be retaliation from the EU and the UK that are unhappy with these subsidies and they could offer their own subsidies to attract green technology firms away from the US • Therefore, this may make the use of subsidies an inefficient use of resources by the US Government	**(9)**

Type MS · Tariffs, quotas and subsidies: how they protect, gains and costs

Answer 14 of 15 · Question 3 part a · 1 mark

2024 NOV · Paper 02 · extract 3 of 5 · find part a in this mark scheme extract

Question Number	With reference to the data above and your knowledge of economics, assess whether income tax is a reliable source of government revenue for a country such as Australia. **Indicative content**	Mark
3(e)	**AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)** **AO2 and AO3** • Income tax is levied on personal income • Income tax represents 47% of total revenue and is the largest source of revenue for the Australian Government • This can help to provide a stable and reliable source of revenue for the Australian Government allowing for effective budget planning and public service provision • Income tax revenue plays a critical role in funding essential public services such as healthcare, education, and social welfare programmes ensuring a high standard of living for Australian citizens • Australia's income tax system is progressive, meaning higher-income individuals pay a larger portion of their income in taxes • This helps reduce income inequality and promotes social equity **AO4** • However, income tax revenue can be dependent on how many workers are actively participating in the Australian economy and paying income tax • Income tax revenue could fall in times of recession or when there are high levels of unemployment restricting the amount available to the Australian Government for public services • Higher income tax rates can discourage work, investment, and entrepreneurship, potentially reducing economic growth and job creation • There are many other sources of revenue which are also reliable for the Australian Government • Sales tax contribute 14% towards the revenue received and relies on consumption rather than employment	**(9)**
